RE: JONES INTERCABLE (H19/D15) 3/10/99 DRAINAGE SUBMITTAL FOR BUILDING
PERMIT APPROVAL. ENGINEER'S STAMP DATED 3-9-99.

Dear Mr. McCarty:

Based upon the information provided in your 3-10-99 drainage submittal, the subject project is approved for Building Permit. Please keep in mind that prior to commencing with any work activity within City right-of-way you are required to obtain the proper permitting.

If I can be of further assistance, feel free to call me at 768-3986.

Sincerely,

Scott Davis
PWD, Hydrology Div.

DRAINAGE FACILITIES MAP, GRID H-19N

DRY WELL DETAIL

LOCATION

As shown on the vicinity map, the site is located between Rhode Island Street and Tennessee Street just north of Menaul Boulevard.

EXISTING SITE CONDITIONS AND DRAINAGE PATTERN

The 2.05 acre site is divided into three sub-basins. Basin "A" collects runoff from the northwest corner of the site and discharges to Phoenix Avenue and flows west along the site. At Rhode Island Street the runoff turns south along the street and flows into a curb inlet at the southeast corner of the site. The runoff going into the inlet flows to a 48" storm drain as shown on the Drainage Facilities Map, Grid H-19N. Additional runoff to the inlet is produced from Basin "B". The runoff from this basin first flows across the parking lot and then into the curb inlet. Basin "C" collects runoff from the northeast corner of the site and flows through a valve in the parking lot to the south of the building and then turns east and discharges onto Tennessee Street. The runoff flows from a curb inlet at the southeast corner of the site, which connects to the previously mentioned 48" storm drain inlet. The entire site is developed with buildings and parking lots and is impervious. Through visual observation of the site there does not appear to be any existing drainage problems. The driveways on the north side of the site are set to drain into the curb inlet and the gutter. The gutter is located on the north side of the curb. The watershed above this site does not run down the site due to the curb and gutter and therefore does not contribute to the discharge of the site.

PROPOSED SITE CONDITIONS AND DRAINAGE PATTERN

The proposed condition will remain developed with a building and parking lot and 15% of the site will be landscaped. Basins "A" and "C" will direct flow through the new parking area, through 5' - 12" curb openings at the west fence, down the existing drainage pipe, and discharge to Rhoads Island Street. The runoff will flow down the street and shall be collected by the curb inlet at the southwest corner of the site. The discharge from the curb inlet will flow into the stormwater main. The discharge from the curb inlet will have a lower flow rate and volume than the existing condition due to less impervious area generated from the landscaping. The proposed conditions will reduce the flow on the downstream system and the downstream floodings by 147 cfs. Because no water is entering the site and the discharge from the site is reduced, the site development compared to the overall basin is not going to impact the downstream floodplain adversely.

NOTICE TO CONTRACTOR

1. AN EXCAVATION/CONSTRUCTION PERMIT WILL BE REQUIRED BEFORE BEGINNING ANY WORK WITH CITY RIGHT-OF-WAY. AN APPROVED COPY OF THESE PLANS MUST BE SUBMITTED AT THE TIME OF APPLICATION FOR THIS PERMIT.
2. ALL WORK DETAILED ON THESE PLANS TO BE PERFORMED, EXCEPT AS OTHERWISE STATED OR PROVIDED HEREON, SHALL BE CONSTRUCTED IN ACCORDANCE WITH CITY OF ALBUQUERQUE INTERIM STANDARD SPECIFICATIONS FOR PUBLIC WORKS CONSTRUCTION, 1985.
3. TWO WORKING DAYS PRIOR TO ANY EXCAVATION, THE CONTRACTOR MUST CONTACT LINE LOCATING SERVICE, 765-1234, FOR LOCATION OF EXISTING UTILITIES.
4. PRIOR TO CONSTRUCTION, THE CONTRACTOR SHALL EXCAVATE AND VERIFY THE HORIZONTAL AND VERTICAL LOCATIONS OF ALL CONSTRUCTIONS. SHOULD A CONFLICT EXIST, THE CONTRACTOR SHALL NOTIFY THE ENGINEER SO THAT THE CONFLICT CAN BE RESOLVED WITH A MINIMUM AMOUNT OF DELAY.
5. BACKFILL COMPACTION SHALL BE ACCORDING TO RESIDENTIAL STREET USE.
6. MAINTENANCE OF THESE FACILITIES SHALL BE THE RESPONSIBILITY OF THE OWNER OF THE PROPERTY SERVED.
