Re: Partial Grading and Drainage Certification (Lots 236-237) Inspiration Subdivision; DRB Case No. PR- 2018-001759; Hydrology File J08D101

Dear Ernest.

We are submitting a partial grading and drainage certification for Inspiration Subdivision. The partial certification includes Lots 236-237. Enclosed for your review is the approved grading and drainage plan dated 06/06/19. These lots have been graded; retaining walls and curb and gutter have been constructed. Asphalt is not in place at this time, however in conversations with the City Engineer. Certificate of Occupancy will not be issued until it is in place.

After reviewing these as-built elevations and visiting the site on 05-11-2020 it is my belief that the above lots have been graded in substantial compliance with the approved grading and drainage plan and that the interim drainage improvements allow runoff to be managed in the interim condition.

Your review and approval is requested for Building Permit Approval for the above listed buildings. I appreciate your time and consideration. If you have questions or require additional information, please contact me at 823-1000.

Sincerely,

Yolanda Padilla Moyer, P.E. Senior Project Manager
