RE: **Bosque Antigua  
Gabaldon Dr NW  
Grading Plan Stamp Date: 10/10/18  
Drainage Report Stamp Date: 10/10/18  
Hydrology File: J12D015**

Dear Ms. Nilsson-Weber:

PO Box 1293      Based on the submittal received on 10/10/18 the above-referenced submittal is approved for Preliminary Plat and Grading Permit.

Albuquerque      Prior to Work Order (For Information):  
1. The easements for ponds D and E will need to be recorded.

NM 87103      Prior to Building Permit (For Information):  
2. Engineer's Certification (Pad Certifications), per the DPM Chapter 22.7: *Engineer's Certification Checklist For Subdivision* is required.

www.cabq.gov      Prior to Release of Financial Guarantee (For Information):  
3. Engineer's Certification (All Private Grading), per the DPM Chapter 22.7: *Engineer's Certification Checklist For Subdivision* is required.

4. The (2) agreement and covenants for ponds D and E will need to be recorded.

If you have any questions, please contact me at 924-3695 or [dpeterson@cabq.gov](mailto:dpeterson@cabq.gov).

Sincerely,

Dana Peterson, P.E.  
Senior Engineer, Planning Dept.  
Development Review Services

MAP PANELS		Digital Data Available
		No Digital Data Available
		Unmapped

This map complies with FEMA's standards for the use of digital flood maps if it is not void as described below. The base map shown complies with FEMA's base map accuracy standards

The flood hazard information is derived directly from the authoritative NFHL web services provided by FEMA. This map was exported on 6/12/2018 at 6:45:20 PM and does not reflect changes or amendments subsequent to this date and time. The NFHL and effective information may change or become superseded by new data over time.

This map image is void if the one or more of the following map elements do not appear: base map imagery, flood zone labels, legend, scale bar, map creation date, community identifiers, FIRM panel number, and FIRM effective date. Map images for unmapped and unmodernized areas cannot be used for regulatory purposes.

**NUMBER OF PROPOSED DWELLING UNITS:** 15

**TOTAL AREA:** 5.4812 Ac.

**FLOOD PLAIN:** This property lies within shaded flood Zone X which is defined as areas of 0.2% annual chance; area of 1% annual chance flood with average depths of less than 1 foot or with drainage areas less than 1 square mile; and area with reduced flood risk due to levee as determined by FEMA and shown on flood insurance rate map no. 35001C03271, date 11/4/2016 and map no. 35001C0331H, date 8/16/12.

## **II. INTRODUCTION**

This site is comprised of two vacant lots located west of Gabaldon Rd. NW and south of I-40 and is bound on the west by the Bio Park (San Gabriel State Park), on the east by two private residences and on the north and south by private residences, and at the southwest corner by a Water Authority well site. The site is zoned R-A and will be re-developed as a cluster development with 15 detached residential homes with two open space area easements that will be utilized for drainage ponds .

## **III. EXISTING CONDITIONS**

The site is undeveloped. The site is flat and drainage ponds on the property. Gabaldon Rd. is a rural-type road with no curb and gutter or sidewalks. There is a roadside ditch at the east end of the property and an existing 18-inch culvert under the existing drive to the two existing residences and a secondary culvert south of the existing drive. The residence northeast of the site utilizes water in this ditch for irrigation. This existing culvert has been plugged at the south end.

## **IV. PROPOSED CONDITIONS**

The site will be developed as a gated residential cluster development. The two existing residences will be included in the gated community. Easements A and B will be granted as open space (private commons areas) that will be used for ponding the 100-year, 10-day volumes. Maxum Ln. (Tract PR) will be crowned and slope to the north and to the south directing the flows to the retention ponds in the private commons open space easements. The road will have mountable estate curb and no sidewalks. There will be a view fence along the open space easements in the back yards to allow drainage to pass to the ponds. The elevation of the road was set to approximately existing grade to maintain cover over an existing 16-inch waterline in the road that will remain.

Gabaldon Rd. will remain as a rural-type road with no curb and gutter or sidewalks. An existing culvert under the existing drive and to the south will be removed.

The grading & drainage plan is included in the back pocket of this report.

### **LAND TREATMENTS & BASIN AREAS**

Land treatment percent D was calculated for the developed area based on the building pad, driveway and roadway areas, and the remaining area was split between land treatments B and C. See Appendix A for land treatment calculations and basin area table.

## HYDROLOGY

Appendix A includes a Drainage Basin Exhibit and the 100-year, 10-day pond volume calculations using the equations from the Drainage Design Criteria for City of Albuquerque Section 22.2, DPM, Vol 2, dated Jan., 1993.

## PONDING IN OPEN SPACE EASEMENTS A & B

Pond A in easement A has a capacity of 865 cy at a water surface elevation of 4957.5, which exceeds the required 10-day storm volume of 855 cy; Pond B in easement B has a capacity of 876 cy at a water surface elevation of 4957.0, which exceeds the required volume of 843 cy; Pond C in Tract A has a capacity of 38 cy at a water surface elevation of 4958.5, which exceeds the required volume of 36 cy. The ponding capacity was calculated using AutoCAD Civil 3D by creating a composite comparison surface with the proposed ground surface and a top-of-pond surface at the water surface elevation (see Appendix A for a pond volume exhibit).

## PONDING ON TRACT 2B, KELLY TRACTS AND PORTION OF TRACT 3, KELLY TRACTS

A v-ditch shall be graded on the two offsite properties to store the 100-yr., 10-day volume from Gabaldon Rd. Tract 2B uses water in the ditch for irrigation, but the existing culvert under the drive has been plugged since many years back so that no flows enter the ditch on Portion of Tract 3. Therefore, the culvert shall be removed. The pond volumes were calculated by the cross-sectional area of the ditch and the length (see pond volume exhibit in Appendix A). A public drainage easement and agreement & covenant shall be recorded. The easements shall be maintained by the Homeowners' Association.

## FIRST FLUSH REQUIREMENTS

The first flush requirement will be met by directing flows to the pond areas in the private common open space easements.

## **V. SUMMARY & CONCLUSIONS**

The site will be developed with 15 detached residential homes and a private, gated road. Open space easements A & B will be designated as a private commons area with private ponding areas for flows from the subdivision.

Based on this report, it is recommended that the following improvements be constructed:

- Paved street with crown and mountable estate curb.
- Retention ponds in easements A & B.
- Retention ponds on offsite Tract 2B, Kelly Tracts and Portion of Tract 3, Kelly Tracts with public drainage easement and agreement & covenant.
- Perimeter walls that are concrete filled and water proofed to one foot above the water surface elevation, where applicable.

### TYPICAL LOT DETAIL

#### PERIMETER WALL NOTES:

UNLESS WRITTEN PERMISSION IS OBTAINED FROM ADJACENT, OFFSITE PROPERTY OWNERS, PERIMETER WALL SHALL BE CONSTRUCTED ON THIS PROPERTY, INCLUDING FOOTINGS.

### PERIMETER WALL DETAIL/NOTES

### GENERAL NOTES

- THE CONTRACTOR SHALL ABIDE BY ALL STATE, LOCAL, AND FEDERAL LAWS, CODES, RULES AND REGULATIONS WHICH APPLY TO THE CONSTRUCTION OF THESE IMPROVEMENTS, INCLUDING EPA AND ADA REQUIREMENTS.
- ALL SITE PREPARATION, GRADING OPERATIONS, FOUNDATION CONSTRUCTION, AND PAVEMENT INSTALLATION WORK SHALL BE CONSTRUCTED IN ACCORDANCE WITH THE GEOTECHNICAL REPORT, WHICH WILL BE PROVIDED BY THE OWNER OR ARCHITECT. ALL OTHER WORK SHALL, UNLESS OTHERWISE NOTED IN THE PLANS, BE CONSTRUCTED IN ACCORDANCE WITH THE CITY OF ALBUQUERQUE STANDARD SPECIFICATIONS FOR PUBLIC WORKS CONSTRUCTION.
- NO WORK SHALL BE PERFORMED WITHOUT THE APPROPRIATE PERMITS. THE CONTRACTOR IS SOLELY RESPONSIBLE FOR OBTAINING ALL REQUIRED PERMITS FOR THE PROJECT PRIOR TO COMMENCING CONSTRUCTION, OR PRIOR TO OCCUPANCY, AS APPROPRIATE. IF PERMITS ARE DELAYED OR ISSUED WITH CONDITIONS, THE CONTRACTOR SHALL NOTIFY THE OWNER AND ARCHITECT IMMEDIATELY.
- COORDINATE WORK WITH SITE PLAN, UTILITY PLAN, DEMOLITION PLAN, AND LANDSCAPE PLAN.
- IT IS THE CONTRACTOR'S RESPONSIBILITY TO FIELD VERIFY HORIZONTAL AND VERTICAL LOCATIONS OF ALL EXISTING OBSTRUCTIONS, AND CONDITION OF ALL EXISTING INFRASTRUCTURE PRIOR TO CONSTRUCTION. REPORT ALL DISCREPANCIES TO THE ENGINEER AND VERIFY THE ENGINEER'S INTENT BEFORE PROCEEDING.
- THE CONTRACTOR SHALL BE SOLELY RESPONSIBLE FOR SITE SAFETY.
- THE CONTRACTOR SHALL MAINTAIN RECORD DRAWINGS ON SITE AT ALL TIMES. THE CONTRACTOR SHALL NOT SCALE DRAWINGS. ONLY WRITTEN DIMENSIONS OR KEYED NOTES SHALL BE USED.
- CONSTRUCTION ACTIVITY SHALL BE LIMITED TO THE PROPERTY AND/OR PROJECT LIMITS. ANY DAMAGE TO ADJACENT STRUCTURES RESULTING FROM THE CONSTRUCTION PROCESS SHALL BE REPAIRED OR REPLACED AT THE CONTRACTOR'S EXPENSE. CONTRACTOR SHALL BE RESPONSIBLE FOR DOCUMENTING EXISTING CONDITIONS PRIOR TO CONSTRUCTION.
- CONSTRUCTION EQUIPMENT SHALL NOT OBSTRUCT DRIVEWAYS. EQUIPMENT SHALL ONLY OBSTRUCT DESIGNATED TRAFFIC LANES IF APPROPRIATE BARRICADING PERMITS HAVE BEEN OBTAINED. THE CONTRACTOR SHALL NOT STORE ANY EQUIPMENT OR MATERIAL IN THE RIGHT-OF-WAY.
- THE CONTRACTOR SHALL PROVIDE A CONSTRUCTION TRAFFIC CONTROL AND SIGNING PLAN THAT CONFORMS TO THE LATEST EDITION OF THE "MANUAL OF UNIFORM TRAFFIC CONTROL DEVICES" (MUTCD) AND LOCAL REQUIREMENTS. THE CONTRACTOR SHALL OBTAIN BARRICADING PERMITS FROM THE APPROPRIATE AUTHORITIES PRIOR TO ANY CONSTRUCTION WORK ON OR ADJACENT TO EXISTING STREETS.
- THE CONTRACTOR SHALL MAINTAIN ALL BARRICADING AND CONSTRUCTION SIGNING AT ALL TIMES. THE CONTRACTOR SHALL VERIFY THE PROPER LOCATION OF ALL BARRICADING AT THE END AND BEGINNING OF EACH DAY.
- EXISTING UTILITY LINES ARE SHOWN IN AN APPROXIMATE MANNER ONLY AND MAY BE INCOMPLETE OR OBSOLETE. SUCH LINES MAY OR MAY NOT EXIST WHERE SHOWN OR NOT SHOWN. CONTRACTOR SHALL CONTACT NM-811 FOR UTILITY LINE SPOTS FIVE WORKING DAYS PRIOR TO CONDUCTING SITE FIELD WORK. CONTRACTOR SHALL FIELD VERIFY AND LOCATE ALL UTILITIES PRIOR TO COMMENCEMENT OF ANY CONSTRUCTION. CONTRACTOR IS FULLY RESPONSIBLE FOR ANY AND ALL DAMAGE CAUSED BY ITS FAILURE TO LOCATE, IDENTIFY AND PRESERVE ANY AND ALL EXISTING UTILITIES, PIPELINES, AND UNDERGROUND UTILITY LINES. THE CONTRACTOR SHALL BE RESPONSIBLE FOR COORDINATION OF NECESSARY DRY UTILITY ADJUSTMENTS.
- ALL TRASH, DEBRIS, & SURFACE VEGETATION SHALL BE CLEARED AND LEGALLY DISPOSED OF OFFSITE.
- VIBRATORY COMPACTION SHALL NOT BE USED OVER IN-PLACE UTILITIES.
- SOIL TESTING AND INSPECTION SERVICES DURING SITE OPERATIONS ARE REQUIRED. CONTRACTOR SHALL ALLOW TESTING LABS TO INSPECT AND APPROVE COMPACTED SUBGRADES, BACKFILL, AND FILL LAYERS BEFORE FURTHER CONSTRUCTION WORK IS DONE. SHOULD COMPACTION TESTS INDICATE INADEQUATE DENSITY, CONTRACTOR SHALL PROVIDE ADDITIONAL COMPACTION AND TESTING AT THE CONTRACTOR'S SOLE EXPENSE.
- CONTRACTOR SHALL LOCATE AND PRESERVE ALL BOUNDARY CORNERS AND REPLACE ANY LOST OR DISTURBED CORNERS AT CONTRACTOR'S SOLE EXPENSE. PROPERTY CORNERS SHALL ONLY BE RESET BY A REGISTERED LAND SURVEYOR.
- CONTRACTOR SHALL PROVIDE CONSTRUCTION STAKING TO FACILITATE ACCURACY IN CONSTRUCTION STAKING. UPON WRITTEN REQUEST FROM THE CONTRACTOR, A FILE CONTAINING THE ELECTRONIC DATA COMPRISING THE SITE CIVIL DRAWINGS WILL BE FORWARDED TO THE LICENSED LAND SURVEYOR TO PERFORM CONSTRUCTION STAKING. ALL SITE CONSTRUCTION LAYOUT MUST BE PERFORMED BY A LICENSED SURVEYOR USING ELECTRONIC DATA PROVIDED IN AUTOCAD \*.DWG (CURRENT VERSION) BY ISAACSON & ARFMAN, P.A. CONTACT PROJECT CIVIL ENGINEER, ASA NILSSON-WEBER, PE AT (505)-266-1688.
- ADJUST ANY RIMS OF EXISTING UTILITY FEATURES AS NECESSARY TO MATCH NEW GRADES. UTILITIES IN PAVED AREAS SHALL BE HS-25 TRAFFIC RATED.
- CONTRACTOR SHALL COMPLY WITH LOCAL REGULATIONS FOR RESEEDING OF DISTURBED AREAS.
