Re: Villa de San Martin
Drainage Report

Dear Mr. Conegliano:

Transmitted with this letter are the revised drainage study sheets for Villa de San Martin. The major change is the replacement of the two underground retention basins with surface ponding. A minor change is relocation of the buildings in Rows 5, 6, 7 and 8. This change resulted in different pond configurations.

Please review and comment on these changes at your earliest convenience. Contact me if you require any additional information.

Very truly yours,

Jean J. Bordenave
President
