Re: Request for Drainage Study Waiver

Dear Bruno:

Pursuant to our conversation of Sept. 25, 1978, we are requesting a waiver of a Drainage Study for a proposed warehouse to be located on Lots 7, 8, 9 and 10 of Block 8, in the Northern Addition of the City of Albuquerque.

As you will note from the accompanying plan and calculations, the amount of impervious area would not be substantially changed with the proposed development; therefore, we feel that a waiver of the required Drainage Study would be in order.

If you find this request acceptable, please acknowledge below and return one copy for our files.

Very truly yours,

MEURER, SERAFINI AND MEURER, INC.

  
Mike Whitney

Approved and accepted this 7/26 day of September, 1978,  
by Bruce Conklin of Assistant City Engineer.
