RE: SOUTHWEST FILM DRAINAGE REPORT

Dear Sir:

Transmitted herewith is revised drainage report for Southwest Film. This revised report contains all of the changes that were mentioned in your letter of October 12, 1981.

1. Computed ponds for a 50-year storm.
2. Submitted calculations for emergency spillway drainage.
3. Increased size of ponds to comply with 50-year storm.

Please be aware that the owner and the contractor need this final approval so that they may commence construction immediately.

We will be available to respond immediately to any request or additional requirements that may occur.

Very truly yours,

A & E ENGINEERING, INC.
