RE: 612 1st STREET RENOVATION DRAINAGE REPORT

Dear Tom:

The referenced report is approved. However, we would appreciate you identifying a temporary bench mark on the plans. This is a big help when a survey is made for the Certificate of Occupancy (If you like, just call and I will make the note on our plans).

Let me take this opportunity to request that any future plans for Fruit Street and the adjacent property should be submitted to this office for review and approval.

Very truly yours,

Dorian G. Burnett
Civil Engineer/Hydrology
