RE: CIVIC PLAZA PHASE II RENOVATION (J-14/D30)
ENGINEER'S STAMP DATED 9/28/95.

Dear Mr. Kelley:

The Grading and Drainage Plan, submitted to this office on 10/3/95, has been reviewed and is approved for Grading Permit, Paving Permit, and for Building Permit. Essentially, there is no grading involved and the renovation of the plaza itself will utilize the existing drainage system which has functioned well.

Sincerely,

John P. Murray, P.E.
PWD, Hydrology Division
