Re: Second and Lomas Replat, Alley Vacation
V-87-110, DRB-87, 624

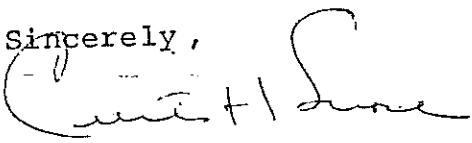

Dear Mr. Aguirre,

Per our telephone conversation of yesterday, Second and Lomas Partnership hereby requests that replacement of curbs, gutters and sidewalks be performed per site plan and architectural drawings as permitted by the City of Albuquerque.

We have a foundation permit, number 8801304 and we plan to start construction as soon as the plat is recorded. Mr. Dan Graney of Southwest Survey is handling the replat for us. He will contact you for signature.

Thank you.

Sincerely,

Curtis H. Shore
Project Manager
