RE: GRADING/PAVING FOR EL BUEN SAMARITANO UNITED METHODIST CHURCH  
(J-14/D76) ENGINEER'S STAMP DATED DECEMBER 12, 1988

Dear Mr. Valdez:

Based on the information provided on your submittal of December 12, 1988, the above referenced plan is approved for Grading/Paving.

I have contacted Richard Dineen (Planning Department) and Victoria Prinz (Redevelopment Division) to inquire as to the meaning of the access provisions required by E.P.C. for Lot 1-C, 1-D, and Lot 4-A. They have advised me that they are considered for pedestrian traffic and not vehicular traffic. It would be advisable to consider installing railroad steps at each location for easy access onto the church parking area.

Also, please be advised that there is a separate permit required for construction within City right-of-way. A copy of this approval letter must be available when applying for the excavation permit.

Upon completion of the project, please advise your client to contact our office to request an inspection. Please provide the file number when requesting the inspection.

~~If I can be of further assistance, please feel free to call me at 768-2650.~~

Cordially,

Bernie J. Montoya, C.E.  
Engineering Assistant
