RE: REQUEST FOR CERTIFICATE OF OCCUPANCY APPROVAL FOR THE 4TH STREET FUELING FACILITY

Dear Mr. Aquirre:

Enclosed for Certificate of Occupancy approval is my certification of compliance with the previously approved drainage plan. As requested, we are also enclosing the Certified Drainage Plan, Drainage Information Sheet, the Pre-Design Conference Report, and the DPM Engineer Certification Checklist.

As noted on the enclosed as-built drainage plan, the only deviation from the design plan were the raised slab elevations over the underground fuel storage tanks and pump islands which resulted in improved drainage but did not change the drainage areas nor the point of discharge.

If you have any questions regarding this request for approval, please call me or Mr. Lee Bell at 889-4100.

Sincerely,

Paul C. Roybal, PE
Principal Engineer
