**Re: RESUBMITTAL OF McDONALD'S/GAS STATION GRADING AND
DRAINAGE PLAN (J-14/D109)**

Dear Mr. Murray:

Submitted for your review is the revised Grading and Drainage Plan for the McDonald's/ Gas Station located at Broadway and Lomas. The following are responses to John Curtin's comments in his letter dated October 6, 1999.

1. The lettering for the existing and proposed spot elevations has been enlarged to at least 0.10" so that it is more readable.
2. All curb elevations are top of curb elevations.
3. Existing storm drains in Broadway, Edith, and Arno have been added to the plan.
4. A copy of the infrastructure list is included in this submittal.
5. The DRB number is 99-297.
6. There are no off-site flows that enter the site.
7. The 50-foot surface drainage easement will be vacated as part of the plat action for the site.

If you should have any questions, please call me at 866-1395.

Sincerely,

David B. Thompson, P.E.
