Subject: Urology Network of New Mexico Private Fire Line Project No. 7556.81  
601 Broadway Blvd. N.E. ( South of Lomas & adjacent McDonald's)

Hello Nilo E. Salgado Fernandez

Question, did a field check on the fire line for the aforementioned project on this date, my attention was called to the number of existing drivepads that existed prior to the construction, are they to being removed and replaced with sidewalk? Also the condition of the existing sidewalk in areas has cracked and may create an unsafe condition for pedestrians, not to mention the sidewalk varies substantially in width thru the project area.

*drivepads need to be  
closed (Reflect on  
plans)*
