Attn.: Mr. John Armstrong, Hydrology Engineer

Subject: Rough Grading Permit Approval
(1642 Indian School Rd., N.E.)

Dear Mr. Armstrong:

A preliminary review of the project site indicates a need for approximately 20,000 C.Y. of fill material. A source for this material has been located with the difficulty of delivery and deposition being immediate. This necessitates a request for a rough grading permit in advance of our submittals of Final Site Development and Drainage Report.

Enclosed is a copy of the existing contours of the 1642 Indian School Rd., N.E. Property with the rough grading contours superimposed. The rough grading contours are interim and not final.

Very truly yours,

WILLIAM MATOTAN & ASSOCIATES, INC.
