PROJECT ENGINEER

GENERAL NOTES

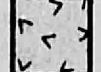

1. Contractor shall notify all Utility Companies when working near their systems. Call 765 1234 regarding location of underground utility lines. All existing utilities shown here were taken as accurately as possible from Record Drawings and surface indications. It shall be Contractors responsibility to protect, maintain in service and verify exact locations of all affected utilities during construction of this Project. Utility Company shall be notified 48 hours in advance of work.
2. Temporary relocation of existing utilities for the convenience of the contractor will be at his own expense.
3. Curb and Gutter shown as existing and not to be removed under this contract which is damaged or displaced by the Contractor or his Subcontractors shall be replaced by the Contractor at his own expense.
4. When abutting new pavement to existing, just prior to repaving, cut back existing paving on a straight line as required to remove any broken, raveled or cracked paving and match the new paving grade to existing.
5. Where removal of existing curb and gutter or sidewalk is required, remove to the nearest joint or saw cut.
6. The exact location of each wheelchair ramp shall be determined in the field by the Engineer. When construction of a new wheelchair ramp is called for at a location where curb and gutter exist, the contractor shall remove and replace existing improvements as required to construct ramp.
7. Items included in these plans and not specifically included in the bid schedule are incidental to items specifically included in the bid schedule, no additional payment for these items will be allowed, for clarification some of these items may be labelled I.W. (incidental work) on these plans.
8. The Contractor shall be responsible for finding suitable material for engineered fills and will be responsible for the removal and disposal of waste materials and unsuitable soils. Borrow to be approved by the Engineer.
9. When work is required in streets, all Traffic Control and Barricading and Signing shall be done in accordance with the Manual on Uniform Traffic Control Devices, Latest Edition, Traffic Division shall review and approve Traffic Control Plans, Call 766 7446.
10. All water valve boxes shall be adjusted to finished grade per City standard details.
