**Re: UNM Acute Care Hospital Drainage Master Plan
Engineer's Stamp dated 09-07-11 (J15/D027A)**

Dear Mr. Stidworthy,

Based upon the information provided in your submittal received August 2, 2012, the above referenced plan is approved for Work Order.

This project will require a National Pollutant Discharge Elimination System (NPDES) permit for storm water discharge if disturbing one acre or more and a Topsoil Disturbance Permit if disturbing $\frac{3}{4}$ of an acre or more. Please attach a copy of this approved plan to the construction sets prior to sign-off by Hydrology. Prior to Certificate of Occupancy release, Engineer Certification per the DPM checklist will be required.

Albuquerque's MS4 Permit became effective March 1st, 2012. Grading and Drainage Plans and Drainage Reports will have to comply with the requirements of the new permit (<http://www.cabq.gov/planning/landcoord/Hydrology.html>).

If you have any questions, you can contact me at 924-3695.

Sincerely,

Shahab Biazar, P.E.
Senior Engineer, Planning Dept.
Development and Building Services
