Re: Hintons Subdivision Lots 19,20, 21
Grading and Drainage Plan

Engineer's Stamp dated 04-13-10 (J18-D038)

Dear Mr. Biazar,

Based upon the information provided in your submittal received 4/14/10, the above referenced plan is approved for Building and Grading Permit. Please attach a copy of this approved plan to the construction sets prior to sign-off by Hydrology.

Also, prior to Certificate of Occupancy release, an Engineer Certification of the grading plan per DPM checklist will be required.

If you have any questions, you can contact me at 924-3986.

NM 87103

PO Box 1293

Requests for approvals of Site Development Plans and/or Subdivision Plats shall be accompanied by a drainage submittal. The particular nature, location and scope of the proposed development defines the degree of drainage detail. One or more of the following levels of submittals may be required based on the following:

- 1. Conceptual Grading and Drainage Plan: Required for approval of Site Development Plans greater than five (5) and Sector Plans.
- 2. Drainage Plans: Required for building permits, grading permits, paving permits and site plans less than five (5).
- 3. Drainage Report: Required for subdivisions containing more than ten (10) lots or containing five (5) acres or more.

Re:

Lots 19, 20, 21 of Tract 9 Hinton's Subdivision, Traffic Circulation Layout

Engineer's Stamp dated 04-10-10 (J18-D038)

Dear Mr. Biazar,

The TCL submittal received 04-12-10 is approved for Building Permit. The plan is stamped and signed as approved. A copy of this plan will be needed for each of the building permit plans. Please keep the original to be used for certification of the site for final C.O. for Transportation. Public infrastructure or work done within City Right-of-Way shown on these plans is for information only and is not part of approval. A separate DRC and/or other appropriate permits are required to construct these items.

Prior to any certificate of occupancy approval, the following item must be completed:

 The proposed replat (DRB Project Number 1008219) must be completed and recorded. Provide a copy of the replat at submittal for Certificate of Occupancy.

PO Box 1293

Albuquerque

If a temporary CO is needed, a copy of the original TCL that was stamped as approved by the City will be needed. This plan must include a statement that identifies the outstanding items that need to be constructed or the items that have not been built in "substantial compliance," as well as the signed and dated stamp of a NM registered architect or engineer. Submit this TCL with a completed <u>Drainage and Transportation Information Sheet</u> to Hydrology at the Development Services Center of Plaza Del Sol Building.

NM 87103

When the site is completed and a final C.O. is requested, use the original City stamped approved TCL for certification. A NM registered architect or engineer must stamp, sign, and date the certification TCL along with indicating that the development was built in "substantial compliance" with the TCL. Submit this certification TCL with a completed <u>Drainage and Transportation Information Sheet</u> to Hydrology at the Development Services Center of Plaza Del Sol Building.

www.cabq.gov

Once verification of certification is completed and approved, notification will be made to Building Safety to issue Final C.O. To confirm that a final C.O. has been issued, call Building Safety at 924-3306.

Sincerely,

Kristal D. Metro, P.E.

Traffic Engineer, Planning Dept.
