Re: Drainage Ordinance (14-5-2-1) Violation for Erosion and Sediment Control and Construction Site Waste(s)

Dear Mr. Gorenz,

The following violations were observed at today's inspection.

1. No Erosion and Sediment Control plan or Notice of Intent for the earth disturbance.
2. Sediment and black sludge outside work area that drains to an inlet without inlet protection around northeast area of site.
3. No inlet protection on any inlets.
4. No Vehicle Tracking Control northeast area of site.
5. Waste and sediment entering the public drainage system.
6. No sediment BMP south edge of northeast area of site.
7. Domestic and construction waste not in an acceptable container-south demo site.
8. Demolition materials outside BMP (curb) that drains to an inlet without inlet protection.

PO Box 1293

Albuquerque

Inlet receiving drainage from demolition area with no protection.

Waste in and on inlet grate – east of south demolition area.

PO Box 1293

Albuquerque

NM 87103

www.cabq.gov

No Vehicle Tracking Control from northeast area of the site.

CITY OF ALBUQUERQUE

No sediment BMP south edge northeast area of the site.

PO Box 1293

Albuquerque

NM 87103

www.cabq.gov

Demolition area in northeast area of the site that drains to an unprotected inlet and to an edge with no sediment BMP.

CITY OF ALBUQUERQUE

South edge of northeast area requires a sediment BMP.

PO Box 1293

Albuquerque

NM 87103

www.cabq.gov

Domestic and construction waste not in an acceptable waste container - demolition area south.

Oil in dirt south demolition area.

PO Box 1293

Albuquerque

NM 87103

www.cabq.gov

Required Mitigation:

1. Submit an Erosion and Sediment Control plan of high enough quality so it can be approved
2. File a Notice of Intent with the EPA and provide the NOI documentation to the City for review.
2. Remove sediment and black sludge from outside the BMP.
4. Remove black sludge from entire northeast area of the site and dispose of it properly.
3. Provide inlet protection on all inlets that receive drainage from the work area.
4. Install Vehicle Tracking Control northeast area of site.
5. Prevent waste and sediment from entering the public drainage system by installing sediment BMPs and inlet protection.
6. Install a sediment BMP south edge of northeast area of site.
7. Place domestic and construction waste in an acceptable container.
- 8 Demolition materials are to be contained with BMPs.

Due to the potential of the unknown black sludge material and other demolition wastes to enter the public drainage system and the apparent disregard for stormwater protection, the New Mexico Environment Department has been notified.

CITY OF ALBUQUERQUE

In addition, if violations are not mitigated within 7 days, the property owner is subject to a fine of \$500/day per the City's Drainage Ordinance.

If you would like to schedule a follow-up inspection at a day and time of your convenience, prior to 7 days from the date of this letter please let me know.

If you have any questions, you can contact me at 924-3420.

Sincerely,

A handwritten signature in black ink that reads 'Curtis C. Cherne'.
