RE: **Lomas Carwash Expansion**
9935 Lomas NE
Grading Plan Stamp Date: 3/27/19
Drainage Report Stamp Date: 3/27/19
Drainage File: J20D003

Dear Mr. Soule:

PO Box 1293

Based on the submittal received on 3/28/19, the grading plan and drainage report are approved for Grading Permit and Building Permit.

Albuquerque

Prior to Certificate of Occupancy (For Information):

NM 87103

www.cabq.gov

1. Engineer's Certification, per the DPM Chapter 22.7: *Engineer's Certification Checklist For Non-Subdivision* is required.
2. A Bernalillo County Recorded [Drainage Covenant \(No Public Easement\)](#) is required for the stormwater control ponds. The original notarized form, exhibit A (legible on 8.5x11 paper), and recording fee (\$25, payable to Bernalillo County) must be turned into DRC (4th, Plaza del Sol) for routing. Please contact Charlotte LaBadie (clabadie@cabq.gov, 924-3996) or Madeline Carruthers (mtafoya@cabq.gov, 924-3997) regarding the routing and recording process for covenants. The routing and recording process for covenants can take a month or longer; Hydrology recommends beginning this process as soon as possible as to not delay approval for certificate of occupancy.

If you have any questions, please contact me at 924-3695 or dpeterson@cabq.gov.

Sincerely,

Dana Peterson, P.E.

Hi David-

I need a copy of the drainage report with this (.pdf). Also, look at the south end of the berm- it's still at 28.5' and doesn't tie-in to the 29' contour; please correct and resend an .pdf.

v/r,

Dana

<<...>>

Dana, please find the resubmittal. I was waiting for the fee in lieu to be paid and this slipped off my active list. It came back as a Friday fire drill. I will be submitting the hard copy in the next hour or so as well as paying the fee.

The clients asked me to try to walk this thru, I said we don't do that but I would send email to the reviewer directly. The only change was raising the berm 1' and adding an overflow, the raising caused slope to exceed 3:1 so I added rock plating. Thank you

David

Site Grading and Drainage Plan

PURPOSE

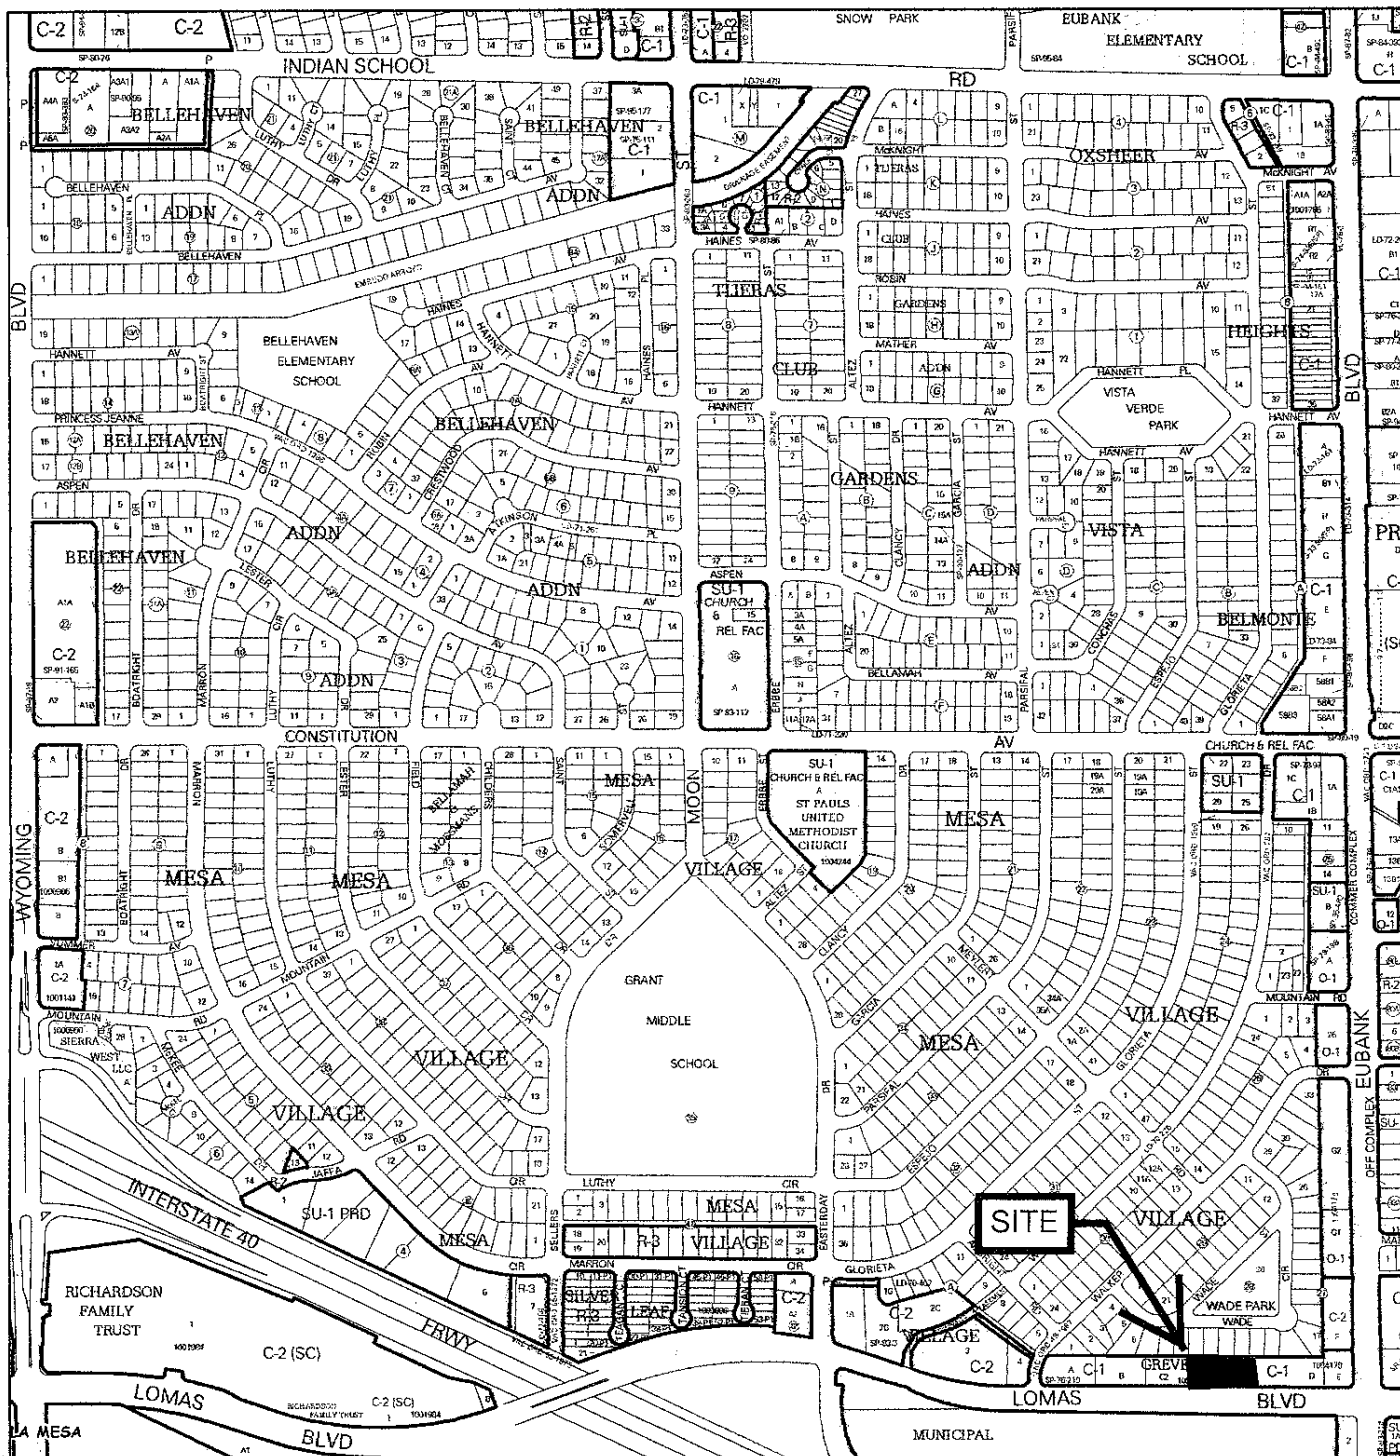

The purpose of this report is to provide the Drainage Management Plan for the upgrade of an existing 4,000 square foot full service car wash facility located on the north side of Lomas just west of Eubank. This plan was prepared in accordance with the City of Albuquerque design regulations, utilizing the City of Albuquerque's Development Process Manual drainage guidelines. This report will demonstrate that the grading does not adversely affect the surrounding properties, nor the upstream or downstream facilities.

INTRODUCTION

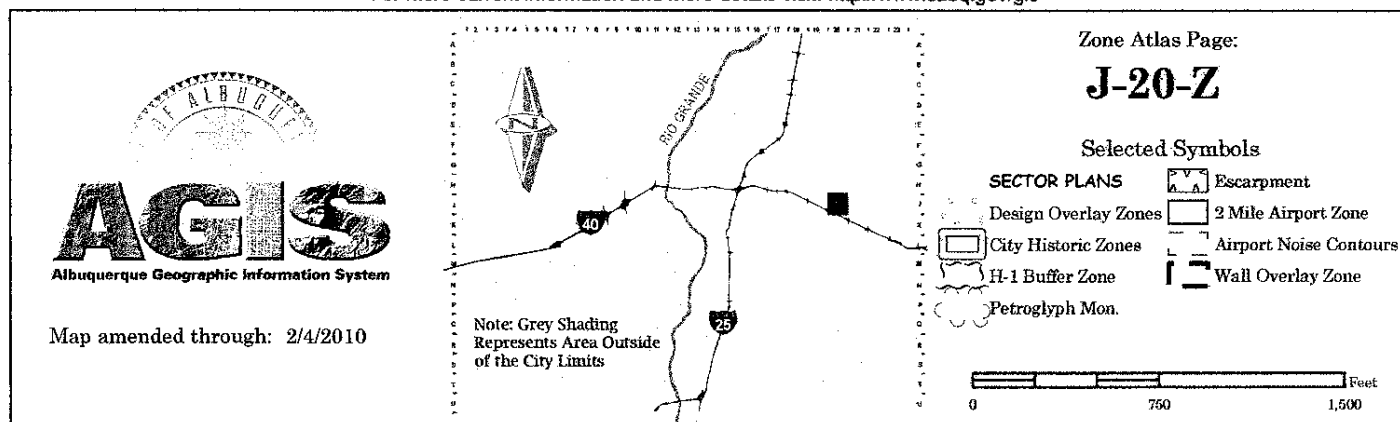

The subject of this report, as shown on the Exhibit A, is a 1.2-acre parcel of land located on the north side of Lomas just west of Eubank in north east Albuquerque. The legal description of this site is tracts C1A, Lands of Grevey. As shown on FIRM map35013C0358F, the entire property is located within Flood Zone X. There is a AO (1') flood zone within Lomas. This site is surrounded by fully developed parcels. This site is an existing fully developed site within a full developed areas. Based on the site location and the adjacent drainage infrastructure this development must drain to Lomas and match existing conditions as closely as possible.

EXISTING CONDITIONS

The site is currently developed. The site is not impacted by any offsite flows, and is surrounded by developed properties that free discharge to Lomas. As shown in Appendix A, the existing site discharges at a peak rate of 3.41 cfs in a 100-year, 6-hour event. The discharge leaves the site as sheet flow directly to Lomas at the western driveway.

For more current information and more details visit: <http://www.cabq.gov/gis>

PROPOSED CONDITIONS

The proposed improvements consist of a 1,000 square foot addition to the existing full service car wash facility. The site will be graded to accommodate the new building while maintaining the existing drainage patterns. As shown in appendix A, the site will be graded to contain three basins. Basin A includes the building and the north east portion of this site. This basin will free discharge 1.71 cfs to a detention/harvesting pond. This pond will discharge to the parking lot via a 3" pipe. The pond will harvest a portion of the discharge by shallow ponding and discharge a peak of .33 cfs. Basin B contains the east drive entrance that discharges .33 cfs as sheet flow to Lomas. Basin B contains the remaining portion of the site. This basin will free discharge 3.07 cfs to Lomas via the west drive entrance. The entire site will generate a peak flow rate of 3.40 cfs. This is 0.01 cfs less than the existing. The site will capture in excess of the total first flush volume, yet the development elects to not capture a portion of one basin and will pay the fee in lieu about of \$232.00 for the 29 CF not treated.

SUMMARY AND RECOMMENDATIONS

This project is an infill project within a completely developed area of North Albuquerque. The project is a redevelopment of an existing site. The site currently discharges 3.41 cfs to Lomas via sheet flow. The proposed drainage plan will allow a portion to free discharge and route the remaining site through a harvesting detention pond. The developed conditions will discharge 3.40 cfs as sheet flow from the driveways to Lomas. The proposed decrease of 0.1 shall have no negative impact on existing drainage patterns. Since this site work area encompasses less than 1 acre, a NPDES permit may not be required prior to any construction activity. The site development will incur a \$232 fee in lieu amount.

APPENDIX A
SITE HYDROLOGY

1. CONTRACTOR IS RESPONSIBLE FOR OBTAINING A TOPSOIL DISTURBANCE PERMIT PRIOR TO BEGINNING WORK.
2. CONTRACTOR IS RESPONSIBLE FOR MAINTAINING RUN-OFF ON SITE DURING CONSTRUCTION.
3. CONTRACTOR IS RESPONSIBLE FOR CLEANING ALL SEDIMENT THAT GETS INTO ANY EXISTING RUN-OFF-OF-WAY.
4. REPAIR OF DAMAGED FACILITIES AND CLEANUP OF SEDIMENT ACCUMULATIONS ON ADJACENT PROPERTIES AND IN PUBLIC FACILITIES IS THE RESPONSIBILITY OF THE CONTRACTOR.
5. ALL EXPOSED EARTH SURFACES MUST BE PROTECTED FROM WIND AND WATER EROSION PRIOR TO FINAL ACCEPTANCE OF ANY PROJECT.

¹ Precipitation frequency (PF) estimates in this table are based on frequency analysis of partial duration series (PDS).

Numbers in parenthesis are PF estimates at lower and upper bounds of the 90% confidence interval. The probability that precipitation frequency estimates (for a given duration and average recurrence interval) will be greater than the upper bound (or less than the lower bound) is 5%. Estimates at upper bounds are not checked against probable maximum precipitation (PMP) estimates and may be higher than currently valid PMP values.

Please refer to NOAA Atlas 14 document for more information.

EROSION CONTROL NOTES:

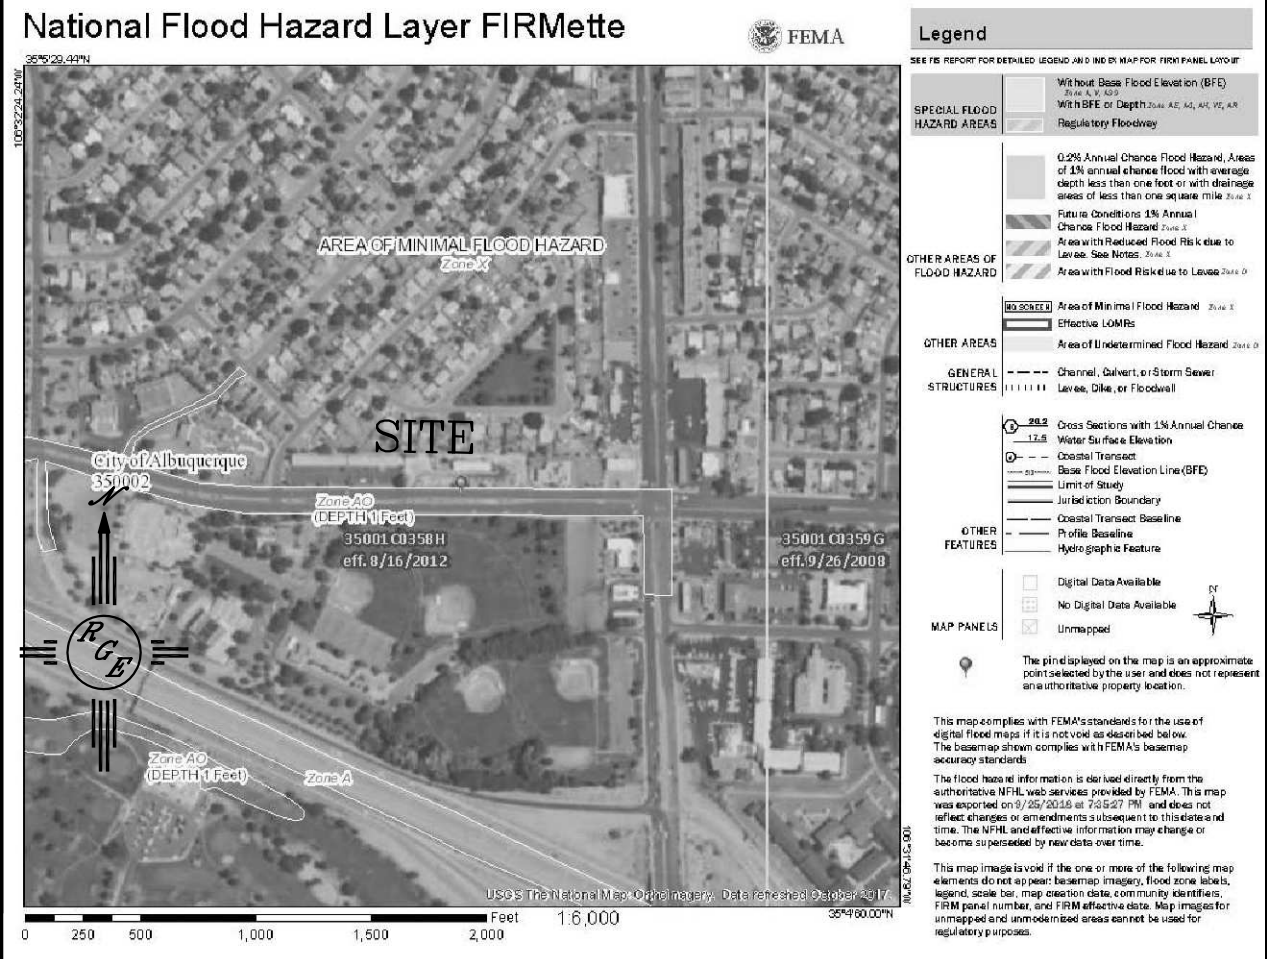

1. CONTRACTOR IS RESPONSIBLE FOR OBTAINING A TOPSOIL DISTURBANCE PERMIT PRIOR TO BEGINNING WORK.
2. CONTRACTOR IS RESPONSIBLE FOR MAINTAINING RUN-OFF ON SITE DURING CONSTRUCTION.
3. CONTRACTOR IS RESPONSIBLE FOR CLEANING ALL SEDIMENT THAT GETS INTO EXISTING RIGHT-OF-WAY.
4. REPAIR OF DAMAGED FACILITIES AND CLEANUP OF SEDIMENT ACCUMULATIONS ON ADJACENT PROPERTIES AND IN PUBLIC FACILITIES IS THE RESPONSIBILITY OF THE CONTRACTOR.
5. ALL EXPOSED EARTH SURFACES MUST BE PROTECTED FROM WIND AND WATER EROSION PRIOR TO FINAL ACCEPTANCE OF ANY PROJECT.

CAUTION:

EXISTING UTILITIES ARE NOT SHOWN. IT SHALL BE THE SOLE RESPONSIBILITY OF THE CONTRACTOR TO CONDUCT ALL NECESSARY FIELD INVESTIGATIONS PRIOR TO ANY EXCAVATION TO DETERMINE THE ACTUAL LOCATION OF UTILITIES & OTHER IMPROVEMENTS.

FIRM MAP:

LEGAL DESCRIPTION:

PARCEL A-1, FINLAND DEVELOPMENT

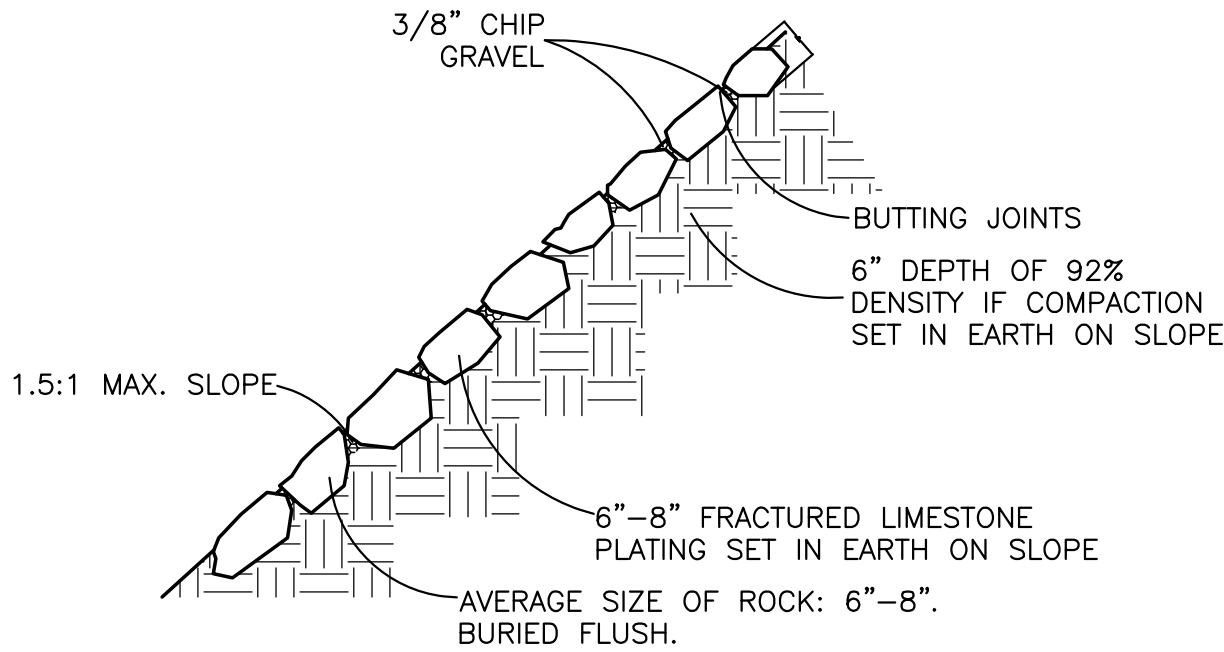

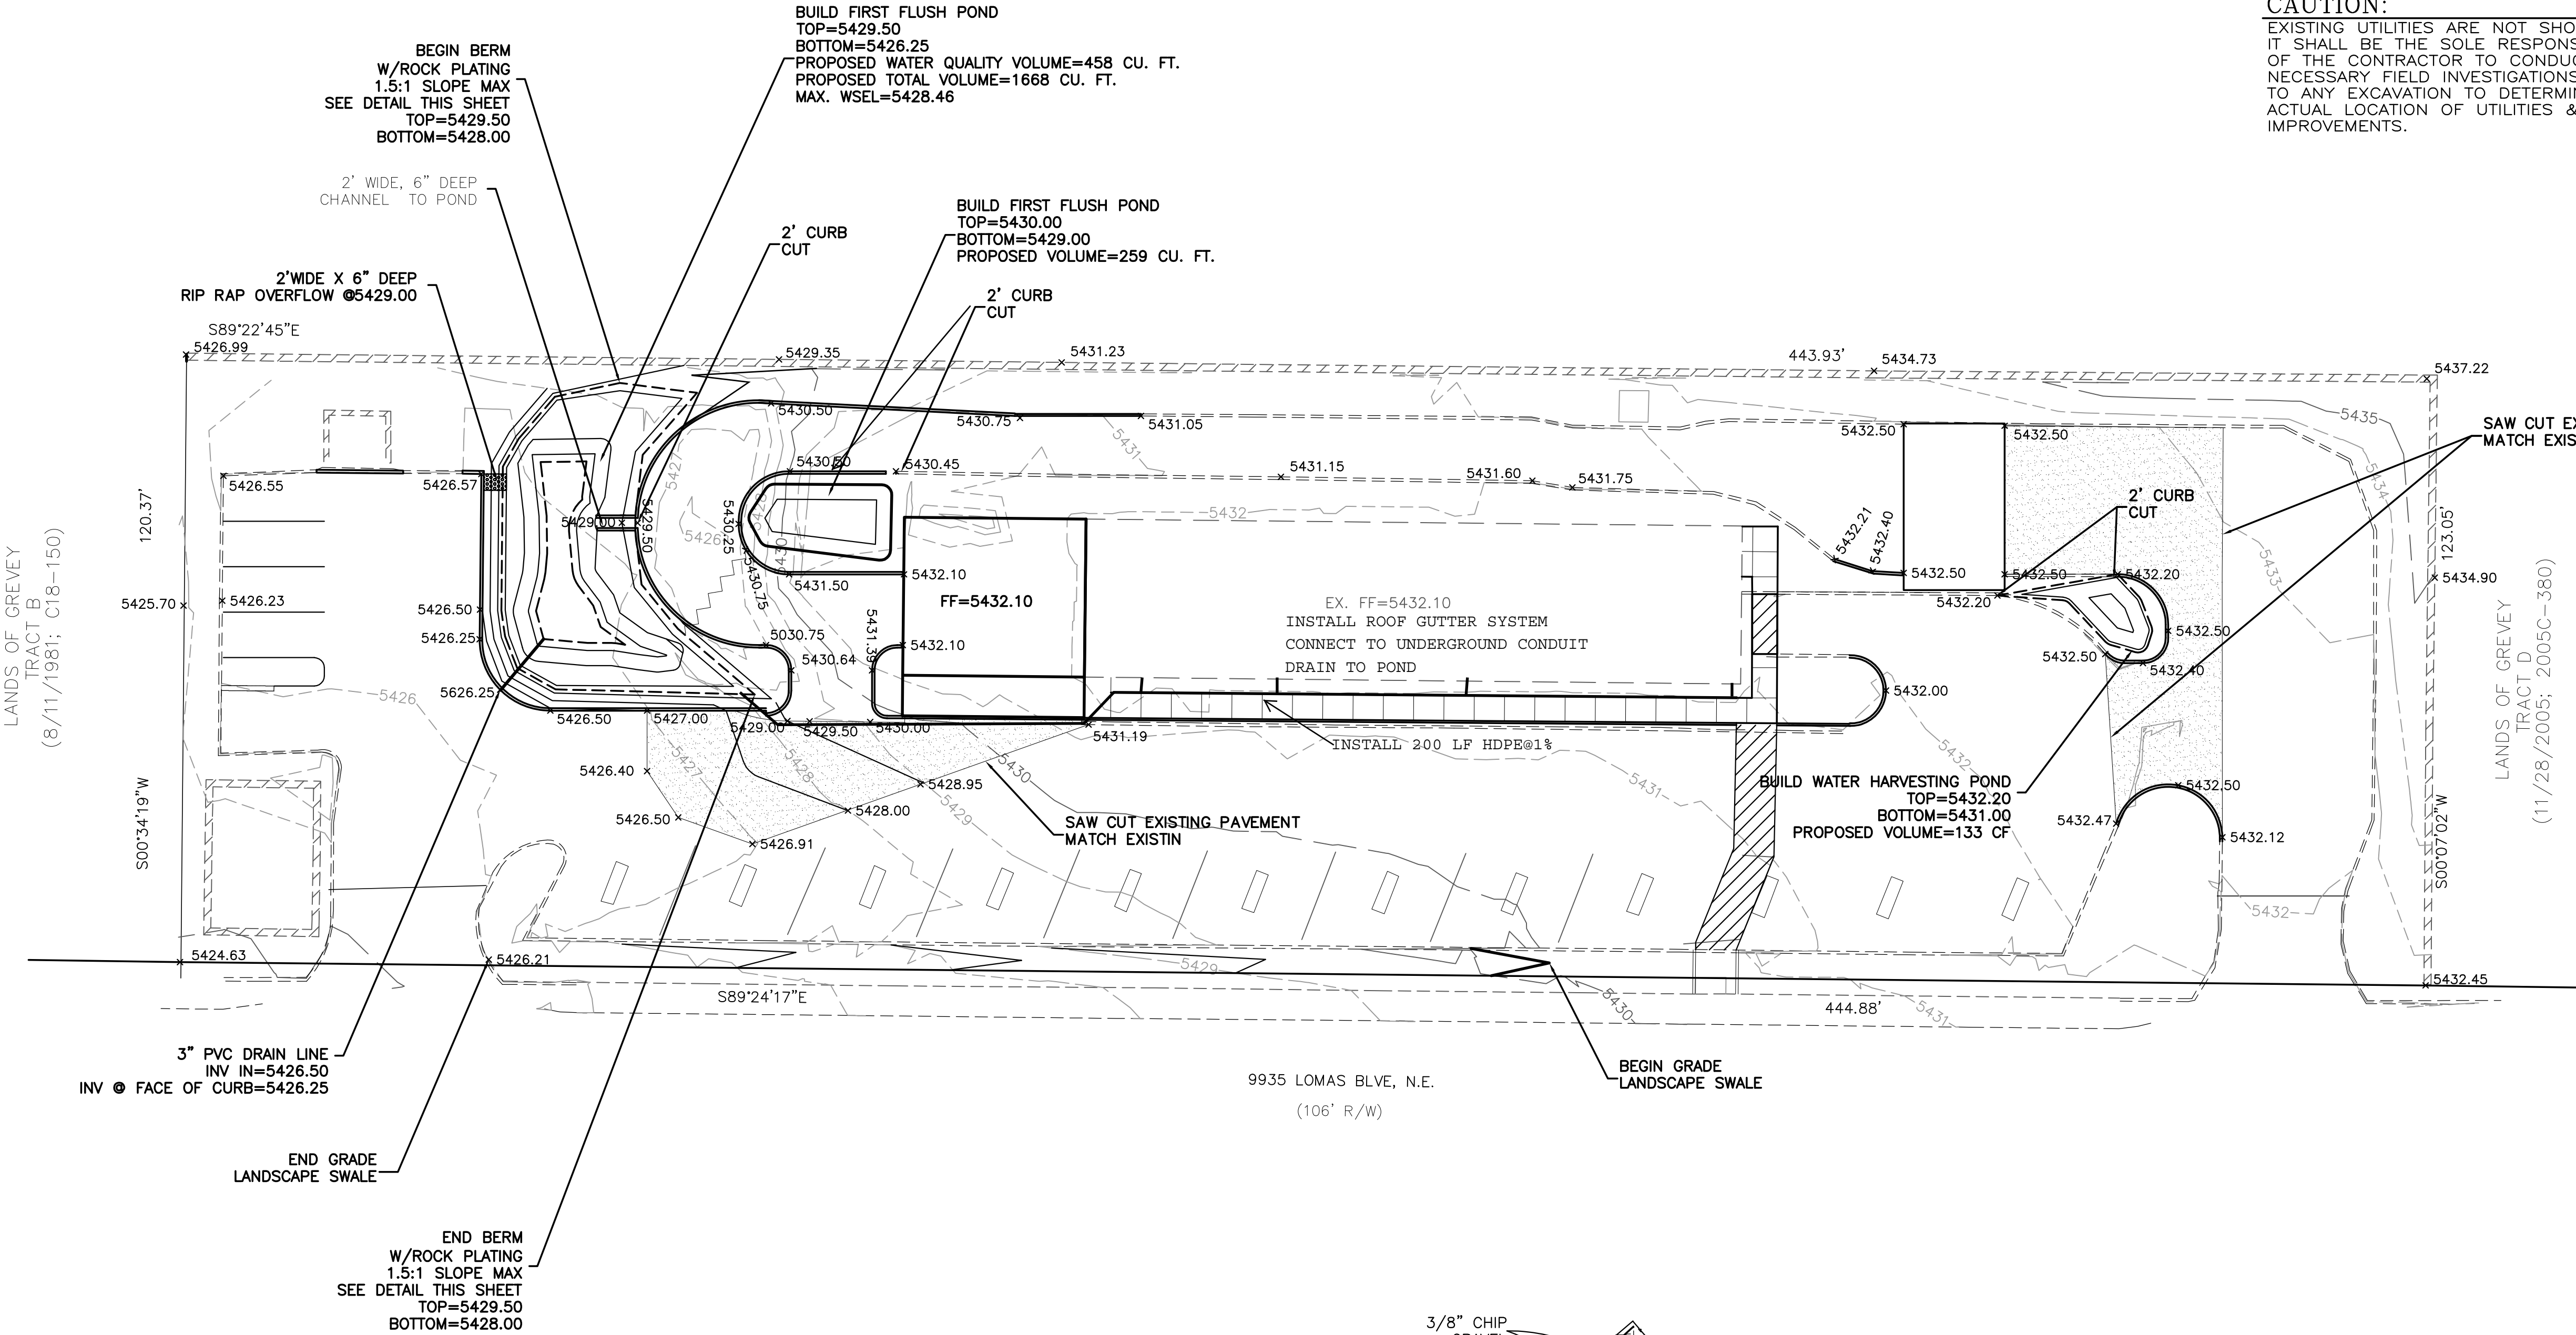

NOTES:

1. ALL SPOT ELEVATIONS REPRESENT FLOWLINE ELEVATION UNLESS OTHERWISE NOTED.
2. ALL CURB AND GUTTER TO 6" HEADER UNLESS OTHERWISE NOTED.
3. ALL RETAINING WALL DESIGN SHALL BE BY OTHERS.
4. ALL NEW PAVING SHALL BE 6" PCC OVER 8" SUBGRADE PREPARATION IN CONFORMANCE TO ACI 330R-08. UNLESS OTHERWISE NOTED.
5. ANY CURBS OR PAVEMENT NEGATIVELY IMPACTED BY CONSTRUCTION ACTIVITY SHALL BE REPLACED TO MATCH EXISTING CONDITIONS.
6. ALL SITE WORK SHALL CONFORM TO CITY OF ALBUQUERQUE STANDARDS FOR PUBLIC WORKS CONSTRUCTION EDITION 9
