Re: Firestone Store, Corner of Juan Tabo and Princess Jeanne Ave,
Drainage Inspection

Attention: Mr. Bernie Montoya (Hydrology Dept.)

Dear Mr. Montoya,

Our office has inspected and approved the ponding at the above referenced site on January 11, 1983. The construction was completed per the Drainage Plan approved on June 18, 1982.

The inspection included excavating a portion of the ponding area and verifying that a sand pad was placed over a plastic liner.

If there are any questions about the project, please do not hesitate to contact me.

Sincerely,

Richard L. Burton, P.E.
