**Re: 98th St./Bluewater Rd. NW
Erosion Sediment Control Plan
Engineer's Stamp Date 11/5/2019 (K09E041)**

Dear Ms. Durkin,

Based upon the information provided in your submittal received 11/6/2019, the above referenced plan is approved to be included in the SWPPP and to apply for an ESC Permit/eNOI for Grading and Work Order.

PO Box 1293

Since the E-NOI is a LEW, an Erosion and Sediment Control Permit is required in accordance with ordinance 14-5-2-11(A). This site is not approved for Grading and Work Order until an ESC Permit form is submitted and approved.

Albuquerque

A separate ESC Plan and NOI documentation will be required for the separate owner of Maverik site prior to Building Permit in accordance with ordinance 14-5-2-11(B).

New Mexico 87103

Additional BMP controls may be required during construction to prevent sediment from leaving this site including Sediment Basin(s) and Sediment Track Out Control in accordance with ordinance 14-5-2-11(C).
