2020-11-04

Dear NeT User,

Coverage status has changed for a project / site under the CGP.

NPDES ID	Form Type	Coverage Status	Operator	Project/Site Name	EPA Comment
NMR1003DQ	NOI	Active	Brunacini Development Ltd.	WAQ1	

Please note that this email does not represent a determination by EPA regarding the validity of the information you provided in your certification. Coverage for coverage under this permit is based on the validity of the certification you provided. Your electronic signature on the NOI or LUP is required to be read, understood, and are implementing all of the applicable requirements. An important aspect of this certification requires that you certify whether you are eligible for coverage under this permit.

The CGP and Common Plan Permit (CPP) require you to have developed a Stormwater Pollution Prevention Plan (SWPPP) prior to construction. The CGP and CPP also include specific requirements for erosion and sediment controls, pollution prevention controls, conducting self-inspections, and conducting staff training. You must comply with any state, tribal, or territory-specific requirements in Part 9 (see <https://www.epa.gov/npdes/stormwater-discharges-construction-activities#cgp>).

A copy of the submission can be found [here](#).

If you have questions about this email or about NeT CGP, please refer to the [NeT Help Center](#) or e-mail [NPDESreporting@epa.gov](mailto:NPDESreporting@epa.gov).
