Endangered Species Protection

Using the Instructions in Appendix D of the CGP, under which criterion listed in Appendix D are you eligible for coverage under this permit? Criterion C

Provide a brief summary of the basis for criterion selection listed above (the necessary content for a supportive basis statement is provided under the criterion you selected.):

The U.S. FWS Species Report and IPaC Critical Habitat Mapping portal indicate there are no critical habitats or endangered, threatened or candidate species in the action area. The nearest critical habitat is 2.38 miles east of the project. The Yellow - Billed Cuckoo habitat consists of densely wooded riparian areas near a water source. As an aviary species, the bird's movement is not limited by borders or other impediments. However, the action area in question does not provide the preferred habitat or food requirements to support the species and it is unlikely to be negatively impacted by site activities.

What federally-listed species or federally-designated critical habitat are located in your "action area"?

Rio Grande Silver Minnow, Yellow - Billed Cuckoo

What is the distance between your site and the listed species or critical habitat (miles)?

(Appendix (https://www.epa.gov/sites/production/files/2017-02/documents/2017_cgp_final_appendix_e_-_historic_properties_reqs_508.pdf), Step 2):
