REF: 405 Grand NE Drainage Report Dated 4/28/82 (File K14-D5A)

Dear Mr. Bordenave:

The revised drainage plan referenced above is approved. Please submit a revised Special Order 19 reflecting the proposed change to the Assistant City Engineer/Design for his approval and an up-dated drainage plan to this office showing the proposed drive pad along Grand Avenue.

In order to expedite or prevent loss of time reviewing minor field changes by this office, such as this one, I would recommend that the owner retain his engineer to perform periodic inspections and certify his project upon completion. At the completion of the project this office would only require an as-built plan accompanied with the engineer's letter of certification to release the Certificate of Occupancy.

If you have any questions regarding the above, please feel free to call me at 766-7644.

Sincerely,

Fred J. Aguirre, PE
Civil Engineer/Hydrology
