Re: Grading and Drainage Plan, Highland Medical Storage Area
Zone Atlas K-14

Gentlemen:

Attached please find our submittal for the referenced project. The intent is to pave a storage area and private driveway, and to redirect the flows (2 cfs) to the public alley and away from an adjacent private parking lot not owned by our client.

In order to redirect the flows, it will be necessary to cross a lot line separating two lots both of which are owned by our client. We wish to accomplish this with a Private Drainage Covenant in lieu of platting. In addition to being a historical neighborhood, the original platting was performed in 1887. We feel that these are very good reasons not to re-plat. We hope that you concur and will allow our client to clean up an eyesore without a major project.

If we can be of further help, please call.

Sincerely,

D. MARK GOODWIN AND ASSOCIATES, P.A.

Mark Goodwin, P.E.
