Requests for approvals of Site Development Plans and/or Subdivision Plats shall be accompanied by a drainage submittal. The particular nature, location and scope of the proposed development defines the degree of drainage detail. One or more of the following levels of submittal may be required based on the following:

1. **Conceptual Grading and Drainage Plan:** Required for approval of Site Development Plans greater than five (5) acres and Sector Plans.
2. **Drainage Plans:** Required for building permits, grading permits, paving permits and site plans less than five (5) acres.
3. **Drainage Report:** Required for subdivisions containing more than ten (10) lots or constituting five (5) acres or more.

Re: Certification Submittal for Final Building Certificate of Occupancy for
McDonalds, [K-187-D85], 925 San Pedro NE
Engineer's stamped letter, Dated 7-01-03

Dear Mr. Adams:

The TCL / Letter of Certification submitted on July 2, 2003 is approved by this office for final Certificate of Occupancy (C.O.) for Transportation. Notification has been made to the Building and Safety Section.

Please note that in the future use a copy of the City stamped approved TCL for certification.

Sincerely,

MEMORANDUM

TO: Richard Dourte

FROM: Rob Adams, P.E.

SUBJECT: McDonald's Restaurant (925 San Pedro NE)

DATE: 07/01/03

Mr. Dourte

Adams Consulting Engineers Incorporated (ACEI) is requesting a **Permanent Certificate of Occupancy** on behalf of McDonalds Corporation for the above-mentioned project. ACEI personnel visited the site on June 25, 2003 to observe the final improvements and note any changes. Upon field verifying these improvements, we noted two revisions which were not reflected on the approved T.C.L. Plan. (Note: These changes have been noted in red on the approved T.C.L. Plan)

1. The trash corral was rotated from a 45° angle to a 90° angle (now runs parallel with San Pedro). This change took place because there was a concern that the 45° trash enclosure did not provide the trash truck enough queuing area.
2. The row of parking stalls north of the trash corral was changed from 18 parking spaces to 22 parking spaces. This change took place because of the revised layout to the trash corral.

Upon final inspection of the entire site ACEI agrees that JM Construction (the contractor) and McDonalds Corporation (the owner) are in **Substantial Compliance with the Approved T.C.L. Plan** per the City of Albuquerque requirements. This letter of approval by ACEI is exclusively for the T.C.L. Plan and does not constitute approval of the Grading, Drainage or Utility Plan.

If you have any additional questions or comments please feel free to give me a call. Thank you for your time.

Sincerely,
ADAMS CONSULTING ENGINEERS, INC.

Re: Traffic Circulation Layout (TCL) Submittal for Building Permit Approval for
McDonalds Restaurant @ San Pedro, [K-18 / D-85]
925 San Pedro Drive NE
G. Robert Adams Stamp Dated November 25, 2002

Dear Mr. Adams:

The TCL submittal, dated December 5, 2002, is sufficient for acceptance by this office and is stamped and signed as such. Four copies will be required: two for submittal of building permit plans, one for this office and one to be kept by you to be used for certification of the site for final C.O. for Hydrology/Transportation.

When superintendent of project is ready to call for a Temporary C.O. immediate issuance is no longer possible at that time. An exact copy of the approved TCL, marked up, showing incomplete work remaining, along with a letter of certification is required prior to issuance of Temporary C.O. If project is one of multiple phases, Barricading Plan is needed clearly illustrating separation of this site from coming phases, not completed or yet begun.

When site is complete and a Final C.O. is needed, a Letter of Certification, stating site was built in substantial compliance, needs to be attached to your stamped, approved TCL letter or TCL must be stamped with the designer's seal for the certification. Seal must be signed and dated for that submittal. This and all documentation must be submitted with a completed Drainage Information Sheet (also used for the Grading and Drainage submittal) to Hydrology at the Development Services Center of Plaza Del Sol Building.

Once verification of certification is completed and approved, notification will be made to Building Safety to issue Final C.O. to confirm that Final C.O. has been issued to the superintendent, call Building Safety at 924-3306.

Sincerely,

Carlos A. Montoya

Re: Approval of Temporary Certificate of Occupancy (C.O.) for
McDonalds [K18/D85]
925 San Pedro NE
Letter of Certification dated 6/10/03 with Engineer's Stamp

Dear Mr. Adams,

Based on the information provided on your submittal dated June 10, 2003, the above referenced project is approved for a 30 day Temporary C.O.

When the outstanding issues have been fully completed and the site is in substantial compliance and a final Certification for Transportation has been resubmitted to the City's Hydrology office for approval, a permanent C.O. will be issued.

The Certification package for Final C.O. must include an copy of the approved TCL (attached). The package also must include a letter of certification on designer's letterhead- stamped with his seal, signed, and dated. Submit package along with fully completed Drainage and Transportation Information Sheet.

If you have any questions, please call me at 924-3990.

Sincerely,

Richard Dourte, PE

Re: Plan Review dated 10/29/2002
McDonald's Restaurant
925 San Pedro Dr., N.E.
Albuquerque, NM.

The following is in response to the City of Albuquerque Hydrology Plan Review dated 10/29/2002 for the proposed McDonald's Restaurant at 925 San Pedro Dr. N.E. Copies of plan check corrections are included in this package. If you should have any additional questions or comments please feel free to give me a call.

Hydrology Department

1. The Plat prepared by Surveys Southwest does not show an easement on the plat but it appears as note #10 in the Subdivision Data/Notes section of the Plat (per city request).
2. Per our civil plans there are no off-site flows entering the McDonald's property.
