**RE: Grading and Drainage Plan for Provos Storage Facility (K18-D89) Dated  
June 25, 2003**

Dear Mr. Miller:

The above referenced drainage plan is approved for Building Permit. A SO #19 is not required for this project. The new drive pad will require a curb cut permit. The reason the City did not need a complete drainage plan is because the facility is small and will only be used for storage. Upon completion of the project please certify the project per the DPM for Certificate of Occupancy release.

If you have any questions please call me at 924-3982.

Sincerely,

Carlos A. Montoya  
City Floodplain Administrator

Requests for approvals of Site Development Plans and/or Subdivision Plats shall be accompanied by a drainage submittal. The particular nature, location and scope of the proposed development defines the degree of drainage detail. One or more of the following levels of submittal may be required based on the following:

1. Conceptual Grading and Drainage Plan: Required for approval of Site Development Plans greater than five
2. Drainage Plans: Required for building permits, grading permits, paving permits and site plans less than five (5)
3. Drainage Report: Required for subdivisions containing more than ten (10) lots or constituting five (5) acres or
