RE: ENCANTO VILLAGE UNITS 2 & 3 (L-10/D17)
Engineers Certification for Release of Financial Guaranty
Engineers Stamp dated 3/22/1999
Engineers Certification dated 1/7/2003

Dear Greg:

Based upon the information provided in your Engineers Certification submittal dated 1/7/2003, the above referenced plan is adequate to satisfy the Grading and Drainage Certification for Release of Financial Guaranty.

If you have any questions, please call me at 924-3981.

Sincerely,

Teresa A. Martin

Requests for approvals of Site Development Plans and/or Subdivision Plats shall be accompanied by a drainage submittal. The particular nature, location and scope of the proposed development defines the degree of drainage detail. One or more of to the following levels of submittal may be required based on the following.

1. **Conceptual Grading and Drainage Plan:** Required for approval of Site Development Plans greater than five (5)
2. **Drainage Plans:** Required for building permits, grading permits, paving permits and site plans less than five (5).
3. **Drainage Report:** Required for subdivisions containing more than ten (10) lots or constituting five (5) acres or more.

Re: Encanto Village, Unit 1, Grading Certification
Engineer's Stamp dated 3-22-99
Engineer's Certification dated 8-13-03 (L10/D17)

Dear Mr. Krenik,

Based upon the information provided in your submittal dated 8-14-03, the above referenced certification is acceptable for Release of SIA and Financial Guarantees.

If you have any questions, you can contact me at 924-3986.

Sincerely,

Bradley L. Bingham, PE
Sr. Engineer, Planning Dept.
Development and Building Services

DEVELOPMENT REVIEW BOARD (DRB) REQUIRED INFRASTRUCTURE LISTING
for Encanto Village, Units 2 & 3

Following is a summary of Public/Private Infrastructure required to be constructed or financially guaranteed to be constructed for the above development. This summary is not necessarily a complete listing. During the design process, if the City determines that appurtenant items have not been included in the summary, those items will be included in the listing and related financial guarantee, if the items normally are the Subdivider responsibility. In addition, any unforseen items which arise during construction which are necessary to complete the project and which normally are the Subdivider's responsibility are the responsibility of the Subdivider and will be included in the financial guarantee provided to the City.

Receipt Requested
TO: Billy J. Goolsby
CC: Fred J. Aguirre, Steve A. Boberg
Subject: Sign-off Encanto Village

Billy:

I will be on vacation next week and I have delegated signature for this project to Steve Boberg. Steve will sign the plans when he is satisfied that adequate access to the Amole channel has been provided. If the perimeter wall is extended across the two streets and the easement, then Steve believes that the Developer must grant additional drainage right of way for a 15' maintenance road.

John

Greg is trying to schedule a meeting w/ Glenn to discuss Access to Amole Channel.

Subject: Encanto Village CPN 6174.81

Billy:

I will not be at the DRC at 1:30 PM today. I will try to bring my mark ups by before I go to my other meeting. The main commment that I have is that Storm Maintenance does not want the developer to extend the perimeter wall across the channel/streets that discharge into the Amole Channel. There isn't a maintenance road on the south side of the Amole channel and Storm Maintenance needs to access the channel at these locations. Greg should discuss this with Ed Elwell or Glenn Jurgensen.

LEGAL DESCRIPTION
BOARD OF EDUCATION TRACT 2

Being that certain parcel of land comprising a portion of Tract 1, as the same is shown and designated on the Plat of the LANDS OF BOARD OF EDUCATION CITY OF ALBUQUERQUE filed in the office of the County Clerk of Bernalillo County, New Mexico on September 14, 1966 in Volume D813, Folio 395, and said portion being more particularly described as follows:

BEGINNING FOR A TIE, at NGS Brass Cap Monument stamped "RADIO 2", having New Mexico State Plane Coordinate Values (Central Zone) of Y=1,479,147.45 and X= 360,609.79, thence; N 09° 30' 57" W a distance of 1901.86 feet to the Southeast corner of the parcel herein described, and the TRUE POINT OF BEGINNING, thence;

N 77° 23' 00" W a distance of 15.00 feet to the Southwest corner of the parcel herein described, said corner being also on the Easterly right-of-way line of Stinson Avenue, SW, and running thence along said Easterly right-of-way line;

N 05° 53' 40" E a distance of 42.79 feet to a point, thence leaving said Easterly right-of-way line;

N 12° 37' 00" E a distance of 188.50 feet to the Northwest corner of the parcel herein described, thence;

S 77° 23' 00" E a distance of 66.05 feet to the Northeast corner of the parcel herein described, thence;

S 72° 37' 00" W a distance of 53.18 feet to a point, thence;

S 12° 37' 00" W a distance of 204.41 feet to the Southeast corner of the parcel herein described and the point of beginning.

Parcel herein described contains 5125.80 square feet (0.118 acres), more or less.

LEGAL DESCRIPTION
BOARD OF EDUCATION TRACT 3

Being that certain parcel of land comprising a portion of Tract 1, as the same is shown and designated on the Plat of the LANDS OF BOARD OF EDUCATION CITY OF ALBUQUERQUE filed in the office of the County Clerk of Bernalillo County, New Mexico on September 14, 1966 in Volume D813, Folio 395, and said portion being more particularly described as follows:

BEGINNING FOR A TIE, at NGS Brass Cap Monument stamped "RADIO 2", having New Mexico State Plane Coordinate Values (Central Zone) of Y=1,479,147.45 and X= 360,609.79, thence; N 05° 25' 40" W a distance of 2021.25 feet to the Southeast corner of the parcel herein described, and the TRUE POINT OF BEGINNING, thence;

Northwesterly, along an arc of 98.29 feet to the left, (said arc having a Radius of 4029.00 feet, a central angle of 01° 24' 59" and a chord which bears N 78° 51' 47" W a distance of 98.29 feet) to a point of tangency, thence;

S 88° 56' 13" W a distance of 25.49 feet to a point, thence;

Northwesterly, along an arc of 181.17 feet to the right, (said arc having a Radius of 4029.00 feet, a central angle of 02° 34' 35" and a chord which bears N 78° 40' 17" W a distance of 181.16 feet), to a point of tangency, thence;

N 77° 23' 00" W a distance of 179.45 feet to the Southwest corner of the parcel herein described, thence;

N 12° 37' 00" E a distance of 48.28 feet to the Northwest corner of the parcel herein described, said corner being also on the Southerly right-of-way line of Bridge Boulevard, SW, and running thence along said Southerly right-of-way line;

S 77° 25' 38" E a distance of 484.20 feet to the Northeast corner of the parcel herein described, thence leaving said Southerly right-of-way line;

S 13° 36' 51" W a distance of 36.02 feet to the Southeast corner of the parcel herein described and the point of beginning.

Parcel herein described contains 21,889.814 square feet (0.503 acres), more or less.

LEGAL DESCRIPTION
BOARD OF EDUCATION TRACT 4

Being that certain parcel of land comprising a portion of Tract 1, as the same is shown and designated on the Plat of the LANDS OF BOARD OF EDUCATION CITY OF ALBUQUERQUE filed in the office of the County Clerk of Bernalillo County, New Mexico on September 14, 1966 in Volume D813, Folio 395, and said portion being more particularly described as follows:

BEGINNING FOR A TIE, at NGS Brass Cap Monument stamped "RADIO 2", having New Mexico State Plane Coordinate Values (Central Zone) of Y=1,479,147.45 and X= 360,609.79, thence; N 09° 35' 23" W a distance of 1948.77 feet to the Southern most corner of the parcel herein described, said corner being also on the Easterly right-of-way line of Stinson Avenue, SW, and the TRUE POINT OF BEGINNING, and running thence along said Easterly right-of-way line;

N 05° 53' 40" E a distance of 238.40 feet to the Northwest corner of the parcel herein described, being the point of intersection of the Easterly right-of-way line of Stinson Avenue, SW, and the Southerly right-of-way line of Bridge Boulevard, SW, and running thence along said Southerly right-of-way line;

S 77° 25' 38" E a distance of 27.91 feet to the Northeast corner of the parcel herein described, thence leaving said Southerly right-of-way line;

S 12° 37' 00" W a distance of 236.78 feet to the Southern most corner of the parcel herein described and the point of beginning.

Parcel herein described contains 3303.84 square feet (0.076 acres), more or less.

RE: DRAINAGE REPORT FOR ENCANTO VILLAGE (L-10/D17)
RECEIVED MAR 30, 1999 FOR PRELIMINARY PLAT & GRADING PERMIT
ENGINEER'S STAMP DATED 3-30-99

Dear Mr. Krenik:

Based on the additional information information submitted on Mar 19, 1999, City Hydrology accepts the Drainage Report for Preliminary Plat and Grading Permit.

The tee intersections at Tranquillo & Partia, Tranquillo & Arbolado and Tranquillo & Canale must be examined carefully during the DRC review because of the converging flows. I suggest that you specify the location of the drivepads on Lots 10 & 11 on Partia, Lot 4 next to the 10' drainage easement and Lots 21 & 22 on Canales.

Engineer's Certification of grading and drainage must be approved by City Hydrology before the Financial Guaranty will be released.

If I can be of further assistance, You may contact me at 768-2727.

Sincerely,

John P. Curtin, P.E.
Project Manager, PWD/Hyd

Re: Encanto Village (L10/D17)

Dear Mr. Curtin:

This is an itemized response to your letter of March 29, 1999 and part of the resubmittal.

1. *The land treatments shown are what is actually in this subdivision. Types B and D are all that has been used with the surrounding subdivisions in this area.*
   I've added the north half of Eucariz and all of Stinson runoff to the calculations. I used 85% D and 15% C for this calculation.
   The pad dimensions include the patios.
   The 10' drainage easement is included in the ROW calculations.
2. *I've modified the calculations for 28' FF streets.*
   In Unit 3, Via Sereno and Via Serenta are at steeper slopes and can handle 24 to 29 lots before the transition to standard curb and gutter.
3. *The "Tower/Sage DMP" indicates that Eucariz, Tract 64 and south half of Tract 65 drain south. This is not what actually can happen in the field. Eucariz will be the high point and half of Eucariz will drain to Bridge while half drains to Tower.*
   SAD 222 only goes east to 82nd Street and ends at the pond between Tower and San Ygnacio (see enclosed map). The 42" storm drain is a future project that will need to be modified because the 42" RCP will need to be reduced in size since at the beginning point no runoff will enter the system.
   We changed the note on the plat (see revised plat).
4. *I've included a copy of the revised plat and infrastructure list.*

Please call if you have any questions or concerns.

Sincerely,

MARK GOODWIN & ASSOCIATES, PA

Gregory J. Krenik, PE

To Subdivision Improvements Agreement
DEVELOPMENT REVIEW BOARD (DRB) REQUIRED INFRASTRUCTURE LISTING
for Encanto Village, Units 1 & 2

Following is a summary of Public/Private Infrastructure required to be constructed or financially guaranteed to be constructed for the above development. This summary is not necessarily a complete listing. During the design process, if the City determines that appurtenant items have not been included in the summary, those items will be included in the listing and related financial guarantee, if the items normally are the Subdivider responsibility. In addition, any unforseen items which arise during construction which are necessary to complete the project and which normally are the Subdivider's responsibility are the responsibility of the Subdivider and will be included in the financial guarantee provided to the City.

RE: DRAINAGE REPORT FOR ENCANTO VILLAGE (L-10/D17)
RECEIVED FEB 19, 1999 FOR PRELIMINARY PLAT & GRADING PERMIT
ENGINEER'S STAMP DATED 2-19-99

Dear Mr. Krenik:

Based on the additional information information submitted on Mar 19, 1999, City Hydrology has the following comments that must be addressed:

Using Table A-5 and N=6.4 DU/Ac, then %D=60% for the entire subdivision. Since this area is a desert it is not reasonable to assume that the landowners will landscape their lots with irrigated lawns. I recommend 20% B and 20% C for the pervious area. The Greiner report indicates that Stinson Street is part of Basin 21E. The Grading Plan indicates that Eucariz also drains to the Stinson storm drain. Attached calculations indicate that the proposed flow exceeds the allowable discharge calculated by Greiner by about 4.5 cfs. If you calculate the right of way separately, I recommend that you use 15% C and 85% D to account for drivepads, handicapped ramps and intersections. Also is the 10' drainage easement in Basin 2 included in the right of way? Does your pad dimensions include a patio or is that additional?

The Street capacity calculations are for 32' F-F streets. The infrastructure list indicates 28' F-F streets. It should not effect the mountable curb streets, but it will decrease the capacity of the standard curb streets. In Unit 3, Via Sereno (22) and Via Serenta (20) exceed the 18 lot limit for mountable curb.

The "Tower/Sage DMP" by AAR indicates that Eucariz, Tract 64 and the southern half of Tract 65 drain to the south. Does the proposed street grade for Eucariz match the approved grades for SAD 222? It may make sense to postpone Unit 2 until SAD 222 constructs the 42" storm drain in Stinson south of Eucariz. Why does note 10 on the Plat assign street maintenance to the Vista Sandia HOA instead of the Encanto Village HOA?

If I can be of further assistance, You may contact me at 768-2727.

Sincerely,

John P. Curtin, P.E.
Project Manager, PWD/Hyd

P.O. Box 1293
Albuquerque, NM 87103

Re: Encanto Village (L-10/D-17)

Dear Mr. Curtin:

This letter is an itemized response to your letter of March 16, 1999, and part of the resubmittal.

1. *This site falls on FIRM maps 35001C0328 and 35001C0329. The 100 year flood is contained within the Tierra Bayita Channel as shown on the maps. These maps are dated September 20, 1996.*
2. *Downstream capacity for the Tierra Bayita Channel is shown in the report by URS Greiner, Inc. which I've attached a copy to go with this file. I've tagged the pages which include our site and we generate less flow then was anticipated.*
3. *This pertains to your comment on the fax you sent today.*

   The rundowns are designed with 10:1 ramps on each side for maintenance vehicles to be able to drive the length of the channel. This information I received from Glen Jurgenson.

Please call with any questions or concerns.

Sincerely,

MARK GOODWIN & ASSOCIATES, PA

Gregory J. Kreink, PE
Vice President

GJK/st

RE: DRAINAGE REPORT FOR ENCANTO VILLAGE (L-10/D17)
RECEIVED FEB 19, 1999 FOR PRELIMINARY PLAT & GRADING PERMIT
ENGINEER'S STAMP DATED 2-19-99

Dear Mr. Krenik:

Based on the information included in the submittal referenced above, City Hydrology has the following comments that must be addressed:

Indicate the FIRM maps used to determine that the site does not lie in a 100 year flood zone. Note the date when the FIRM maps were approved.

Verify the downstream capacity of the Amole Channel. Free discharge is not automatic. Until AMAFCA releases their study of the Southwest Channels by Leedshill Herkenhoff, the Boyle Report titled "Investigation Phase Report for the Re-Evaluation Study of the Amole del Norte Storm Diversion Facility" dated June 1984 is being used to determine capacity. It appears that the site is in Basin 21D of the Boyle Report.

If I can be of further assistance, You may contact me at 768-2727.

Sincerely,

John P. Curtin, P.E.
Project Manager, PWD/Hyd

DEVELOPMENT REVIEW BOARD (DRB) REQUIRED INFRASTRUCTURE LISTING
for Encanto Village, Units 1 & 2

Following is a summary of Public/Private Infrastructure required to be constructed or financially guaranteed to be constructed for the above development. This summary is not necessarily a complete listing. During the design process, if the City determines that appurtenant items have not been included in the summary, those items will be included in the listing and related financial guarantee, if the items normally are the Subdivider responsibility. In addition, any unforseen items which arise during construction which are necessary to complete the project and which normally are the Subdivider's responsibility are the responsibility of the Subdivider and will be included in the financial guarantee provided to the City.

(1) PDE - Private Drainage Easement

Engineer's Certification for Grading and Drainage per DPM including Perimeter Walls as shown on the Grading Plan for Release of SIA and Financial Guarantees. Financial Guarantee is not required for this item.

Water infrastructure to include valves, fittings, valveboxes and fire hydrants.

Sanitary sewer to include manholes and service connections.

Street lights per DPM.
