Attention: Mr. Bernie J. Montoya, CE

Re: Permit for Asphalt Paving of small parking area (999 Sq. Ft) south of the building at 636 San Mateo SE.

Prior to the recently completed widening of San Mateo SE, a curb cut existed on San Mateo that led directly onto the asphalted parking area. In the widening of San Mateo SE, the Highway Department moved that curb cut further south so that now, a car entering or leaving the existing parking area has to drive partly over dirt to reach, or leave, the parking area.

Therefore the placement of 999 Square Feet of new asphalt to meet the driveway and join the existing parking area is desired (see accompanying drawing). At the same time, the existing parking area would be cleaned and re-surfaced.

Sincerely Yours,

Howard H. Sander

CONFERENCE RECAP

SUBJECT: 636 San Marco S.F. (Addition)

	WHO	REPRESENTING
ATTENDANCE:		

FINDINGS:
1. Finish Floor Elevation to M.S.L.
2. Couple of T.C. spot elevations
3. Also indicate existing grad. conditions for the proposed development
4. Existing drainage pattern before development and proposed confirmed by a few spot elevations.
5. Discuss offsite flows.

NOTE: Developed runoff must be routed to public-right-of-way. Otherwise let's discuss.

The undersigned agrees that the above findings are summarized accurately and are only subject to change if further investigation reveals that they are not reasonable or that they are based on inaccurate information.
