City of Albuquerque  
Hydrology Department  
James Hughes

Mr. Hughes,

The Greater Albuquerque Housing Partnership is aware of your concerns regarding the rear yard slope of our Casa Feliz development, specifically Building J located at 511 Espanola St SE 87108.

We understand the disapproval letter was connected to Building K at 523 Espanola St SE, but it was actually tied to Building J at 511 Espanola St SE. We request your reevaluation of Building K for the release of a permanent Certificate of Occupancy.

Please consider this letter a commitment to work with the Design Engineer and the City of Albuquerque Hydrology Department to resolve this issue to your approval, allowing up to 60 days for an appropriate solution and completion of the task.

Thank you for your consideration.

Felipe Rael, Executive Director  
Greater Albuquerque Housing Partnership
