---

Hello John,

I was able to look at the resubmittal for the TCL. The two driveways (25' 10" and the 46' 6") on Acoma Rd should be closed with sidewalk (standard drawing 2430) and curb and gutter (standard drawing 2415A). This can be address by a red line if you can have your architect come in and make the changes and add a revision date or they can be changed on the plan and submitted again.

Thank you.
