

Mini Clear Sight Triangle for Driveways on Residential Streets:

Figure 1. Mini Clear Sight Triangle

Things to consider regarding mini clear sight triangle evaluations:

1. Does the proposed wall/structure impact the person's ability to see oncoming pedestrians and vehicular traffic?
2. Does the proposed wall/structure impact the adjacent neighbor's driveway entrance clear sight?
3. Is the driveway entrance to a major road with greater than normal residential volumes? This could derive a much larger clear sight triangle; see intersection clear sight triangles for examples.
4. Where is the property boundary? Walls that are extending into the public right-of-way may require a revocable permit with the Planning Department, Design Review Committee.
