Re: Murphy Express – 110 Eubank Blvd. NE
Erosion and Sediment Control Plan
Engineer's Stamp Date: 9/14/2020 (L21E059)

Dear Mr. Bordelon,

Based upon the information provided in your submittal received 9/15/2020, the above referenced ESC Plan is approved for Grading and Building Permit.

The EPA Low Erosivity Waiver (LEW) and The City of Albuquerque's Construction Stormwater Quality Permit are also approved for Grading and Building Permit.

Please include a copy of the approved plan along with a signed copy of the SWQ Permit in the Building Permit application. The permit must be posted on the site during construction.

At a minimum a routine compliance self-inspection is required to review the project for compliance with the Construction General Permit once every 14 days and after any precipitation event of 1/4 inch or greater until the site construction has been completed and the site determined as stabilized by the city. Reports of these inspections shall be kept by the person or entity authorized to direct the construction activities on the site along with a copy of the CGP, the "stormwater team" contact sheet, and the approved ESC Plan.

If you have any questions, you can contact me at 924-3420 or jhughes@cabq.gov.

Sincerely,

James D. Hughes
