RE: ENGINEER'S CERTIFICATION FOR MANZANO BAPTIST CHURCH
(L-22/D47) RECEIVED NOVEMBER 16, 1990

Dear Mr. Lee:

Based on the information provided on your submittal of November 18, 1990, Certification is acceptable.

Please be advised that the Certificate of Occupancy will not be released until we receive concurrence from construction for the S.O. #19 work. The DPM checklist indicates that with your certification submittal, you must provide copies of construction approval from the appropriate government agencies for construction within their right-of-way and or easements.

If I can be of further assistance, please feel free to call me at 768-2650.

FROM: Fred J. Aguirre, Hydrologist; Engineering Group/PWD

SUBJECT: PRIVATE DRAINAGE FACILITIES WITHIN PUBLIC RIGHTS-OF-WAY/EASEMENT
MANZANO BAPTIST CHURCH - 12411 LINN AVENUE, NE (L-22/D47)

Transmitted herewith, is a copy of the approved drainage plan for the referenced project incorporating the S.O. #19 design.

In accordance with the new process, this plan is being submitted to you for permitting and inspection. Please provide this section with a signed-off copy per the signature block upon construction and acceptance by your office.

As you are aware, the signed-off S.O. #19 is required by this office for Certificate of Occupancy release; hence your expeditious processing of this plan would be greatly appreciated and would avoid any unnecessary delay in the release of the Certificate of Occupancy.

Thank you for your cooperation, and if you should have any questions and/or comments regarding the process, please feel free to call me at 768-2650.

RE: REVISED DRAINAGE PLAN FOR MANZANO BAPTIST CHURCH
(L-22/D47) REVISION DATED July 30, 1990

Dear Mr. Lee:

Based on the information provided on your resubmittal of July 31, 1990, revisions as indicated are acceptable.

Please be advised that Engineer's Certification will be required prior to Certificate of Occupancy release. Also, a separate permit is required for construction within the City right-of-way. A copy of this approval letter must be on hand when applying for the excavation permit.

If I can be of further assistance, please feel free to call me at 768-2650.

Re: Revised Drainage Plan for Manzano Baptist Church (L-22/D47),
revision dated July 30, 1990.

Gentlemen:

This drainage plan was previously approved for Site Development
Plan and for building permit (revision dated September 6, 1988).

This resubmittal, with the addition of a sidewalk culvert at the
southwest corner of the site, is necessary because the contractor
did not grade the west portion of the site per the approved
drainage plan.

The proposed contours shown on the uphill slope reflect the as-
built conditions. The new swale shown at the bottom of the slope
will direct runoff to the new sidewalk culvert as shown hereon.

Sincerely,

Ken Hovey, Architect

RE: REVISED DRAINAGE PLAN FOR MANZANO BAPTIST CHURCH
(L-22/D47) REVISION DATED SEPTEMBER 6, 1988

Dear Mr. Lee:

Based on the information provided on your resubmittal of September 6, 1988, the above referenced plan is approved for Building Permit.

A separate permit is required for construction within City right-of-way. The contractor will need a copy of this approval letter when applying for the excavation permit.

Alo, roof runoff must be routed towards the sidewalk culverts and not over the public sidewalk.

Please attach a copy of this plan to the construction sets prior to sign-off by Hydrology.

If I can be of further assistance, please feel free to call me at 768-2650.

RE: REVISED DRAINAGE PLAN FOR MANZANO BAPTIST CHURCH
(L-22/D47) RECEIVED AUGUST 9, 1988

Dear Mr. Lee:

Based on the information provided on your resubmittal of August 9, 1988, there are still certain concerns that will need to be addressed prior to approval:

1. How do you propose to handle the 0.01 cfs of offsite flows? You cannot pond it on the proposed landscape area.
2. Roof runoff from the west side of the proposed addition has not been addressed yet. You must direct this runoff towards the asphalt area and not over the public sidewalk.
3. Construction notes along with the sign-off block from the S.O. #19 format must be included within the plan drawing.
4. Two copies will be required with the resubmittal.

If I can be of further assistance, please feel free to call me at 768-2650.

Cordially,

Bernie J. Montoya, C.E.
Engineering Assistant

RE: DRAINAGE PLAN FOR MANZANO BAPTIST CHURCH
(L-22/D47) RECEIVED JULY 22, 1988

Dear Mr. Lee:

Based on the information provided on your submittal of July 22, 1988,
listed are six items that will need to be addressed prior to approval:

1. existing contours indicate you may have off-site flows entering the site at the northwest corner;
2. sidewalk culvert calculations will, will the proposed culvert release the developed 8.41 cfs?
3. roof run must be routed towards the asphalt area. How do you propose to accomplish these?
4. approved filed copy of replat submitted for our files;
5. engineer's stamp must also be dated;
6. water must be directed into the sidewalk culvert. Is the sidewalk going to be raised enough so as to keep the runoff from being directed elsewhere besides the sidewalk culvert?

If I can be of further assistance, please feel free to call me at 768-2650.
