Subject: RE: Questionable residential lot....

Tim,

As discussed, do not approve the plan with comment "Describe to Hydrology how this addition can be constructed without adversely affecting your downstream neighbor."

Please make a "paper" file for L23D007 and put this email and the screen shot into the file.

Thanks,

cc

Curtis,

14406 OAKWOOD PL NE this address appears to discharge onto the neighbors to the south. I feel we need a drainage plan. We have nothing of use on record.
