Conceptual Traffic Circulation Layout-DFT Engineer's/Architect's Stamp 12-02-24 (M10D023)

Dear Mr. Liberman,

The conceptual TCL submittal received 12-12-24 is approved for DHO and/or DFT submittal. When submitting this project through the building permit process, a full Traffic Circulation Layout will need to be submitted and approved prior to building permit. **An approved Traffic Scoping Form is required before full Traffic Circulation Layout approval.**

PO Box 1293

Albuquerque

When the site construction is completed and an inspection for Certificate of Occupancy (C.O.) is requested, use the original City stamped approved TCL for certification. Redline any minor changes and adjustments that were made in the field. A NM registered architect or engineer must stamp, sign, and date the certification TCL along with indicating that the development was built in "substantial compliance" with the TCL. Submit this certification, the TCL, and a completed Drainage and Transportation Information Sheet to plndrs@cabq.gov for log in and evaluation by

NM 87103

Transportation.

www.cabq.gov

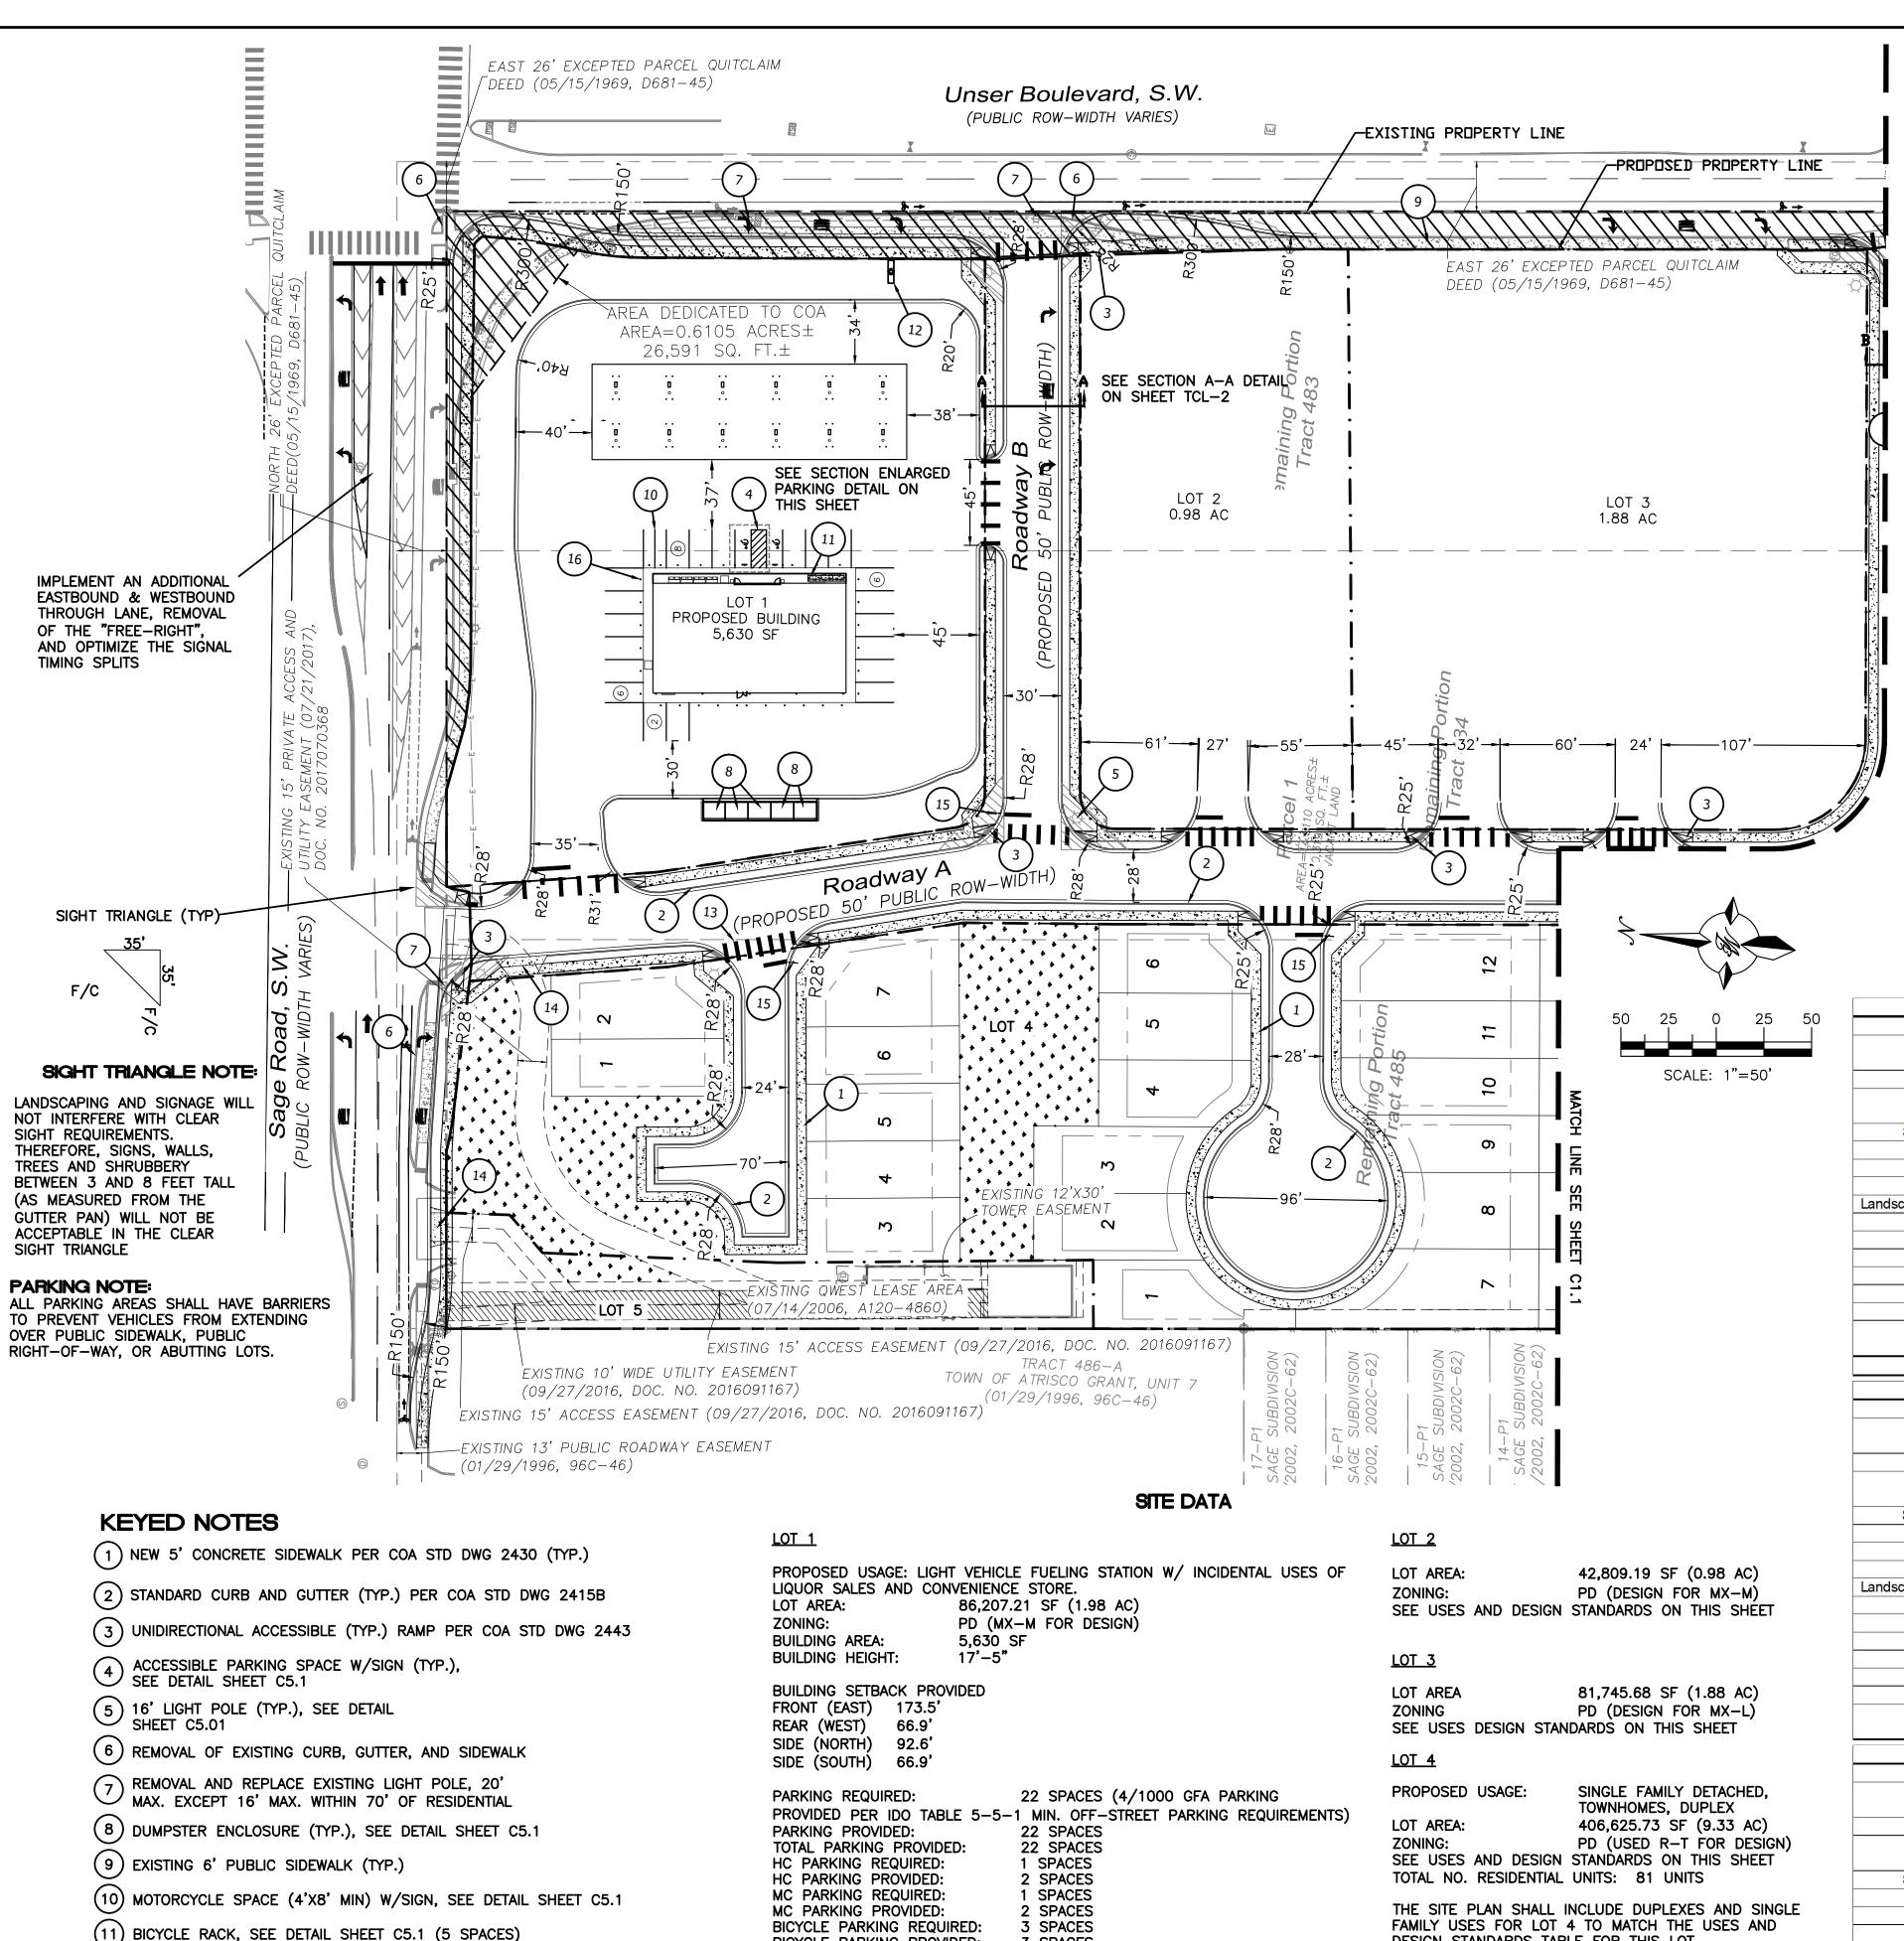

Once verification of certification is completed and approved, notification will be made to Building Safety to issue Final C.O. To confirm that a final C.O. has been issued, call Building Safety at 924-3690.

Sincerely,

Ernest Armijo, P.E.

Principal Engineer, Planning Dept.
