

This collection of information is approved by OMB under the Paperwork Reduction Act, 44 U.S.C. 3501 et seq. (OMB Control No. 2040-0305). Responses to this collection of information are mandatory in accordance with this permit and EPA NPDES regulations (40 CFR 122.28(b)(2)). An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The public reporting and recordkeeping burden for this collection of information are estimated to average 1.1 to 19.6 hours per response. Send comments on the Agency's need for this information, the accuracy of the provided burden estimates and any suggested methods for minimizing respondent burden to the Regulatory Support Division Director, U.S. Environmental Protection Agency (2821T), 1200 Pennsylvania Ave., NW, Washington, D.C. 20460. Include the OMB control number in any correspondence. Do not send the completed form to this address.

Permit Information

NPDES ID: NMR10064F

State/Territory to which your project/site is discharging: NM

Is your project/site located on federally recognized Indian Country lands? No

Are you requesting coverage under this NOI as a "Federal Operator" or a "Federal Facility" as defined in Appendix A (https://www.epa.gov/system/files/documents/2022-01/2022-cgp-final-appendix-a-definitions.pdf)? No

Have stormwater discharges from your current construction site been covered previously under an NPDES permit? No

Will you use polymers, flocculants, or other treatment chemicals at your construction site? No

Has a Stormwater Pollution Prevention Plan (SWPPP) been prepared in advance of filling this NOI, as required? Yes

Are you able to demonstrate that you meet one of the criteria listed in Appendix D (https://www.epa.gov/system/files/documents/2022-01/2022-cgp-final-appendix-d-endangered-species-protection.pdf) with respect to protection of threatened or endangered species listed under the Endangered Species Act (ESA) and federally designated critical habitat?  
Yes

Have you completed the screening process in Appendix E (https://www.epa.gov/system/files/documents/2022-01/2022-cgp-final-appendix-e-historic-properties.pdf) relating to the protection of historic properties? Yes

Indicating "Yes" below, I confirm that I understand that CGP only authorized the allowable stormwater discharges in Part 1.2.1 and the allowable non-stormwater discharges listed in Part 1.2.2. Any discharges not expressly authorized in this permit cannot become authorized or shielded from liability under CWA section 402(k) by disclosure to EPA, state or local authorities after issuance of this permit via any means, Including the Notice of Intent (NOI) to be covered by the permit, the Stormwater Pollution Prevention Plan (SWPPP), during an Inspection, etc. If any discharges requiring NPDES permit coverage other than the allowable stormwater and non-stormwater discharges listed in Parts 1.2.1 and 1.2.2 will be discharged, they must be covered under another NPDES permit.  
Yes

Operator Information

Operator Information

Operator Name: Maverik, Inc.

Operator Mailing Address:  
Address Line 1: 185 South State Street, Suite 800  
Address Line 2: City: Salt Lake City  
ZIP/Postal Code: 84111 State/Province: UT  
County or Similar Division: Salt Lake  
Country: US

Operator Point of Contact Information  
First Name Middle Initial Last Name: John X Chatwin  
Title: Construction Manager  
Phone: 385-343-3124 Ext.:  
Email: John.Chatwin@Maverik.com

NOI Preparer Information

☒ This NOI is being prepared by someone other than the certifier.

First Name Middle Initial Last Name: Aaron X Avila

Project/Site Information

Project/Site Name: Maverik Albuquerque 2121 Yale Blvd. SE

Project/Site Address  
Address Line 1: 2121 Yale Boulevard SE  
Address Line 2: City: Albuquerque  
ZIP/Postal Code: 87106 State: NM  
County or Similar Division: Bernalillo  
Latitude/Longitude: 35.057883°N, 106.622555°W  
Latitude/Longitude Data Source: Map Horizontal Reference Datum: WGS 84

Project Start Date: 03/11/2024

Project End Date: 03/11/2027

Estimated Area to be Disturbed: 1.75

Types of Construction Sites:

Commercial

Will there be demolition of any structure built or renovated before January 1, 1980?

No

Will you be discharging dewatering water from your site?

No

Was the pre-development land use used for agriculture?

No

Are there other operators that are covered under this permit for the same project site?

No

Have earth-disturbing activities commenced on your project/site?

No

Is your project/site located on federally recognized Indian Country lands?

No

Is your project/site located on a property of religious or cultural significance to an Indian tribe?

No

Discharge Information

Does your project/site discharge stormwater into a Municipal Separate Storm Sewer System (MS4)?

Yes

Are there any waters of the U.S. within 50 feet of your project's earth disturbances?

No

Are any of the waters of the U.S. to which you discharge designated by the state or tribal authority under its antidegradation policy as a Tier 2 (or Tier 2.5) water (water quality exceeds levels necessary to support propagation of fish, shellfish, and wildlife and recreation in and on the water) or as a Tier 3 water (Outstanding National Resource Water)? See Resources, Tools and Templates (https://www.epa.gov/npdes/construction-general-permit-resources-tools-and-templates)

Yes

001: Site Discharge Point

Latitude/Longitude:

35.058207°N, 106.623325°W

Tier Designation:

N/A

Is this receiving water impaired (on the CWA 303(d) list)?

Yes

Impaired Pollutants:

Dissolved oxygen

PCB in water column

Mercury

Temperature

E. coli

Has a TMDL been completed for this receiving waterbody?

Yes

TMDL ID:

NM2105

Name:

Rio Grande (Tijeras Arroyo to Alameda Bridge)

TMDL Pollutants:

E. coli

Stormwater Pollution Prevention Plan (SWPPP)

Will all required personnel, including those conducting inspections at your site, meet the training requirements in Part 6 of this permit?

Yes

Endangered Species Protection Worksheet: Criterion C

Determine ESA Eligibility Criterion

Are your discharges and discharge-related activities already addressed in another operator's valid certification of eligibility for your "action area" under the current 2022 CGP?

No

Has consultation between you, a Federal Agency, and the USFWS and/or the NMFS under section 7 of the Endangered Species Act (ESA) concluded?

No

Are your construction activities the subject of a permit under section 10 of the ESA by the USFWS and/or NMFS, and this authorization addresses the effects of your site's discharges and discharge-related activities on ESA-listed species and/or designated critical habitat?

No

You must determine whether species listed as either threatened or endangered, or their critical habitat(s) are located in your site's action area (i.e., all areas to be affected directly or indirectly by the federal action and not merely the immediate area involved in the action, including areas beyond the footprint of the site that are likely to be affected by stormwater discharges, discharge-related activities, and authorized non-stormwater discharges).

Determine your Action Area

You must consider the following in determining the action area for your site, and confirm that all the following are true:

In determining my "action area", I have considered that discharges of pollutants into downstream areas can expand the action area well beyond the footprint of my site and the discharge point(s). I have taken into account the controls I will be implementing to minimize pollutants and the receiving waterbody characteristics (e.g., perennial, intermittent, ephemeral) in determining the extent of physical, chemical, and/or biotic effects of the discharges. I confirm that all receiving waterbodies that could receive pollutants from my site are included in my action area.

True

- In determining my "action area", I have considered that discharge-related activities must also be accounted for in determining my action area. I understand that discharge-related activities are any activities that cause, contribute to, or result in stormwater and authorized non-stormwater point source discharges, and measures such as the siting, construction timing, and operation of stormwater controls to control, reduce, or prevent pollutants from being discharged. I understand that any new or modified stormwater controls that will have noise or other similar effects, and any disturbances associated with construction of controls, are part of my action area.

True

Determine is ESA-listed species and/or critical habitat are in your site action area.

ESA-listed species and designated critical habitat are under the purview of the NMFS and the USFWS, and in many cases, you will need to acquire species and critical habitat lists from both federal agencies.

National Marine Fisheries Service (NMFS)

For NMFS species and designated critical habitat information, use the following webpage:

https://www.epa.gov/npdes/construction-general-permit-cgp-threatened-and-endangered-species-eligibility

(https://www.epa.gov/npdes/construction-general-permit-cgp-threatened-and-endangered-species-eligibility)

I have checked the webpage listed above and confirmed that:

- There are no NMFS-protected species and/or designated critical habitat in my action area.
- There are NMFS-protected species and/or designated critical habitat in my action area.

U.S. Fish and Wildlife Service (USFWS)

For USFWS species and critical habitat information, use the following webpage:

https://www.epa.gov/npdes/construction-general-permit-cgp-threatened-and-endangered-species-eligibility

(https://www.epa.gov/npdes/construction-general-permit-cgp-threatened-and-endangered-species-eligibility)

I have checked the webpage listed above and confirmed that:

- There are no FWS-protected species and/or designated critical habitat in my action area.
- There are FWS-protected species and/or designated critical habitat in my action area.

For FWS species, include the full printout from your IPaC query/Official Species List.

Name	Uploaded Date	Size
<div><div></div>U.S. Fish &amp; Wildlife Service (Rio Grande).pdf (attachment/1786462)</div>	12/21/2023	265.26 KB
<div><div></div>U.S. Fish &amp; Wildlife Service.pdf (attachment/1786463)</div>	12/21/2023	253.34 KB
<div><div></div>ACTION AREA-AA-1.pdf (attachment/1786467)</div>	12/21/2023	3.76 MB

You may be eligible under **Criterion C**. You must assess whether your discharges or discharge-related activities are likely to result in short- or long-term adverse effects to ESA-listed threatened or endangered species or designated critical habitat. In order to make a determination of your site's likelihood of short- or long-term adverse effects, you must complete the Criterion C Eligibility fields below.

Discharges not likely to result in any short- or long-term adverse effects to ESA-listed species and/or designated critical habitat. True

You are eligible under **Criterion C**.

I confirm that both ESA-listed species and designated critical habitat under the jurisdiction of the USFWS and/or NMFS were considered in my evaluation. Yes

Identify the USFWS information sources used (Note: state resources are not acceptable):

USFWS IPAC, Project Code(s): 2023-0055822, 2023-0060269

Identify the NMFS information sources used (Note: state resources are not acceptable):

USFWS IPAC, Project Code(s): 2023-0055822, 2023-0060269

You must provide a list of all ESA-listed species and/or designated critical habitat that are located in your "action area". Select one of the options below and provide the required information:

- Option 1: Enter ESA-listed species
- Option 2: Attach the species list(s)

- Attach a printout of the species list(s) showing all ESA-listed species and/or designated critical habitat located in your "action area" using the space below:

Name	Uploaded Date	Size
<div><div></div>U.S. Fish &amp; Wildlife Service (Rio Grande).pdf (attachment/1786468)</div>	12/21/2023	265.26 KB
<div><div></div>U.S. Fish &amp; Wildlife Service.pdf (attachment/1786469)</div>	12/21/2023	253.34 KB

What is the distance between your site and the ESA-listed species and/or designated critical habitat within the action area (in miles, state "on site" if the ESA-listed species and/or designated critical habitat is within the area to be disturbed)?

Provide the rationale describing specifically how adverse effects to ESA-listed species will be avoided from the discharge and discharge-related activities.

The distance between the project site and the critical habitat (i.e., the Rio Grande) is approximately two miles. The size of the project site (1.74 acres) is clearly much smaller than the size of the City of Albuquerque (approximately 120,000 acres). Consequently, the project site will be contributing only a minute amount of stormwater to the City of Albuquerque storm sewer system. In addition, SWCs implemented during site construction (i.e., perimeter silt fence, straw wattles, and a water quality control pond) are designed to control sediment transport prior to discharge to the storm sewer system. As such, the water quality for the entire action area is not likely to be decreased by the stormwater discharge from the project site. Because of this, short- and long-term affects to the critical habitat of the endangered Rio Grande Silvery Minnow Hybognathus amarus is not expected as a result of this project. The two letters from the USFWS, one for the project site and one for the storm sewer system discharge into the Rio Grande, contain maps of the action area and are provided in Appendix N of the SWPPP.

Attach a copy of your site map showing the upland and in-water extent of your "action area". 

**Note:** A copy of this site map must also be included with your SWPPP

Name	Uploaded Date	Size
 ACTION AREA-AA-1.pdf (attachment/1786474)	12/21/2023	3.76 MB

Have you provided documentation in your SWPPP supporting your eligibility under Criterion C? [Yes](#)

Historic Preservation

Are you installing any stormwater controls as described in Appendix E (<https://www.epa.gov/system/files/documents/2022-01/2022-cgp-final-appendix-e-historic-properties.pdf>) that require subsurface earth disturbances? (Appendix E (<https://www.epa.gov/system/files/documents/2022-01/2022-cgp-final-appendix-e-historic-properties.pdf>), Step 1)

Yes

➤ Have prior surveys or evaluations conducted on the site already determined historic properties do not exist, or that prior disturbances have precluded the existence of historic properties? (Appendix E (<https://www.epa.gov/system/files/documents/2022-01/2022-cgp-final-appendix-e-historic-properties.pdf>), Step 2):

No

➤ Have you determined that your installation of subsurface earth-disturbing stormwater controls will have no effect on historic properties? (Appendix E (<https://www.epa.gov/system/files/documents/2022-01/2022-cgp-final-appendix-e-historic-properties.pdf>), Step 3)

Yes

Certification Information

I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gathered and evaluated the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I have no personal knowledge that the information submitted is other than true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations. Signing an electronic document on behalf of another person is subject to criminal, civil, administrative, or other lawful action.
