**Re: Volterra Village
Request for Building Permit Approval
Master Paving Plan dated 1-8-13
Certification dated: 1-27-15**

Dear Mr. Goodwin,

Based on the Certification received 1/28/2015, the site is acceptable for release of Building Permit acceptance by Hydrology.

For future submittals, it is common practice to submit the approved Grading and Drainage Plan with as-built information on this plan.

If you have any questions, you can contact me at 924-3695 or Rudy Rael at 924-3977.
