1.0 OVERVIEW	Page
1.1 Project Information	3
1.2 Certifications	4
1.3 Letter of designation	5
1.4 Project Description	7
1.5 Site Map/General Location Map[s]/Area of Soil Disturbance	7
1.6 Scope of Work to be Completed	7
1.7 Measures to Prevent Discharge into Waters of the US	7
1.8 Teams and responsibilities	9
1.9 Training sheet and inspector training certificates	10
1.10 Endangered or Threatened species/Historical Site	10
1.11 TMDL	10
 2.0 EROSION AND SEDIMENT CONTROL MEASURES	
2.1 Temporary Erosion and Sediment Control Drawing[s]	11
2.2 Stabilization Practices	12
2.3 Allowable Non-Storm Water Discharges/Storm Water Discharges	12
2.4 Potential Sources of Storm Water Pollution	15
2.5 Area/Equipment Tasks Frequency Preventive Maintenance/Inspections	15
2.6 Good Housekeeping	17
2.7 Spill Control Practices	18
2.8 Listed BMP Justification and Rationale	20
2.9 Pollutants from Support Activities	21
2.10 Other Potential Pollutants	21
2.11 Runoff Coefficients and RUSLE calculation Pre, During, post construction	21
2.12 Final stabilization including revegetation plan	22
2.13 Revisions to SWPPP Plan	23
2.14 Inspection Reports	24
 3.0 PLANS/MATERIALS INCORPORATED FOR REFERENCE	TAB 3
BMPs	
Endangered Species	
 4.0 NATIONAL POLLUTION DISCHARGE ELIMINATION SYSTEM (NPDES)	
GENERAL PERMIT 2022	TAB 4
 5.0 NOTICE OF INTENT and NOTICE OF TERMINATION	TAB 5
Copy of Notice of Intent	
Site contact information sheet	
Notice of Termination	

1.4 Project Description

The Event Center on University Project will fundamentally consist of horizontal and vertical construction of a new commercial building for Aritza Valles in Albuquerque, New Mexico. There will grading, asphalt, concrete, drainage, vertical construction, stabilization, and finish work.

Soil disturbing activities will include but are not limited to: grading, excavation, and installation of erosion and sediment control measures.

1.5 Site Map/General Location Map[s]/Areas of Soil Disturbance

See next page for location of project, soil information, and historical precipitation data.

1.6 Scope of Work to be Completed

The construction activities will consist of:

Item	Begin	End
Installation of BMPs		
Subgrade prep/Grading		
Structures		
Asphalt/Concrete		
Finish Work		
Final Grading		
Revegetation/Landscaping		

1.7 Measures to Prevent Pollutant Discharge into Waters of the US

It is the intent of the Owner/Operator and Contractor/Operator to provide and comply with permitted coverage requirements until 70% of the original vegetated state [prior to disturbance] of the area is evenly stabilized back to an original non-disturbed vegetated percentage. At such time, this SWPPP will be amended to reflect the termination of coverage and a Notice of Termination [NOT] will be filed.

Required temporary erosion and sediment control devices will be installed prior to the commencement of construction activities on the Event Center on University Project to prevent and control soil loss. While construction activities are occurring within the project; the appropriate control measures will be implemented by the operators in areas of soil disturbance to direct runoff and ensure that the transport of pollutants and sediment are minimized during storm water events. As the project is developed [progresses toward completion or in the event of rain] the entire project will be continually evaluated by inspection to determine and ensure that the appropriate control measures[s] are being utilized at each location or within certain areas.

above]. Once construction activities have permanently ceased, final stabilization practices will be applied.

1.8 STORM WATER POLLUTION PREVENTION TEAM

The storm water pollution prevention team is responsible for developing, implementing, maintaining and revising this SWPPP. The members of the team are familiar with the management and operations of the Event Center on University Project.

Alliance Paving is in operational control of construction and requested the origination of this SWPPP. Caldon Seeding and Reclamation, LLC is delegated and authorized to originate and design the SWPPP for NPDES compliance. The member[s] of the team and their responsibilities [i.e. implementing, maintaining, record keeping, submitting reports, conducting inspections, employee training, conducting the annual compliance evaluation, monitoring for non-storm water discharges and signing the required certifications] are as follows:

NAME & TITLE	RESPONSIBILITY
Aritza Valles 10410 Coronado Ave NE Albuquerque, NM 87122 Beto Trevizo (505) 288-4394	Owner
Fierro and Company (505) 503-9546 Rober Fierro,PE	SWPPP Development Design Support
	General Contractor/Construction Operations Team
Caldon Seeding and Reclamation (505) 699-5913 Len Horan	SWPPP & Inspections
Caldon Seeding/Alliance Paving (505) 850-8412 Richie Caldon	Revegetation/BMPs
