Item Number	Deficiency/ Corrective Action				
1	Three prior areas of concern have been mitigated at the time of this inspection, including ESC Plan and NOI approval, Posting, and up-to-date SWPPP available on site. However there still aren't any BMPs on site. In accordance with the established escalation procedures an additional 10 days will be allowed to complete the BMPs since the operators have been cooperative and have made significant progress in mitigating 3 out of 4 of the original violations. If the BMPs are not installed by 4/11/2021 a fine of \$500/day will be imposed for each of the 19 days since the fine for the first day on 3/23/2022.				
2.1	Discharge off site? (Y/N)	No			
4	Self Inspection Reports		Latest report Date:	n/a	
<p>The entire site was cleared, graded and compacted, one stockpile of earth 15' tall by 300' long was present at the first inspection on 3/14/2022 along with a manufactured building. A 40'x90' stack of concrete traffic barriers has been onsite for about 4 years with minimal land disturbance. A second dirt pile was added the next day. There hadn't been any noticeable activity for 15 days at the time of the third inspection on 4/1/2022.</p> <p>On 4/1/2022 I met with Lupita Pena and Eddie Gonzales at Guzman Construction office in the MDS Aperture building to review the SWPPP, violation status, and escalation process. The SWPPP contained the map, Operator Certifications, NOIs, and a copy of the 2022 CGP and was generally up-to-date. The NOI for MDS Investments LLC was certified on 3/28/2022.</p>
